Introduction

This report details the findings of the second Education Perceptions Monitor for President Kennedy School.

The report measures the levels of satisfaction among the pupils' parents for a range of criteria, which have been previously identified as being important to the parents of school pupils, as well as for the core subjects, taught at the school.

The report measures the relative importance of the criteria surveyed, as well as providing results tables that identify the perceived strengths and weaknesses of the school in the year to November 2012.

The report also measures performance with regard to overall satisfaction and improvement.

The results have been analysed to produce graphical presentations of each criterion and subject for both performance and importance. Criteria have also been analysed against year group and gender of pupil; criteria that produce a significant result for this test are included in the report in graphical form.

Methodology

The sample surveyed was taken from the parents of the pupils of the school. Questionnaires were distributed to all pupils' parents.

Questionnaires were sealed with a letter of explanation requesting help, and a reply envelope.

Completed questionnaires were returned sealed, to the form tutor.

The questionnaire asked parents to give a score of between 1 and 5 for each subject offered by the school as well as for a list of identified parent priorities. Parents were then asked to choose the 10 most important criteria from the list of 20 identified priorities. The parents also estimated the time their child spent on homework, identified subjects in which they felt their child was being "pushed" too hard or not hard enough and commented on the overall performance of the school, as well as making specific suggestions regarding possible improvements.

Results

350 completed questionnaires were returned representing a response rate of 29.0%. The survey produced an acceptable overall response from the parents, gave good performance scores for most of the academic subjects and the chosen performance criteria. The response meant that data could be drawn for all criteria.

For the sake of assessment in most schools, questions receiving a score of 70% or over should be considered a success for academic subjects, with 65% being a realistic target of attainment for non-academic criteria. These scores are based on average figures gathered from similar schools.

Scores of 10% or more higher than these target scores are exceptional, with scores of at least 5% less than these targets indicating room for improvement.

In some schools, the parents might be less likely to award a more generous score of 5, because one problematic issue within the school (such as bullying or discipline) is colouring the parents' perceptions of the other issues surveyed, and hence lowering scores across the board. Where this is the case, the boundary at which results are emboldened, to indicate areas of concern, may be lowered by 5%. This was not the case for this school.

The parents gave an excellent overall performance score (82%), while among the parents whose children were not in their first year at the school 64% said the school had improved over the last year while only 1% thought that the school's performance was worse. Of the parents of new pupils, only 1% felt that the school had not lived up to their expectations while 45% said the school was better than they had expected it to be.

Executive Summary

The survey results reveal that the school has reason to be very happy with most of its activities; particularly the number of criteria showing an improvement in scores.

With regard to Academic subjects, parents are most happy with the delivery of Psychology *, Spanish and Sociology *. (See page 8)

The parents are least happy with the delivery of Health and Social Care *, History and French. (See page 8)

With regard to Non-Academic areas, parents are most happy with the delivery of Careers advice, Levels of homework and School communication. (See page 9)

The parents are least happy with the delivery of School facilities, Choice of subjects and Computer access. (See page 9)

The parents' top priority for improvement is School facilities. (See page 21)

The parents of boys gave significantly higher scores for Control of bullying and Caring teachers. (See page 69)

The parents of girls gave significantly higher scores for History and Choice of subjects. (See page 68 and page 69)

Criteria marked with a Pink * should only be considered as indicative.

Since The Previous Survey (see pages 8, 9 and 11)

There were 11 academic areas which received significantly higher scores than the previous survey.

There were 32 non-academic areas which received significantly higher scores than the previous survey.

The survey has achieved a good benchmark of performance against which future academic years might be compared.

Results Tables

In the following table the mean scores achieved are given as a %. A full explanation of how mean scores (lying between 1 and 5) were converted to percentages is given in the Appendix. As there is a measurable bias in the way that parents score criteria, it is necessary to create "weighted" scores so that the score for any one criterion might be compared meaningfully with the score for any other criterion on "a level playing field". These weighted scores are calculated based upon the average scores achieved from over 140 similar, English schools, and are also included in the appendix of this report.

All of the scores given have been tested to be reliable to within less than 5%, at the 95% confidence level, except for those subjects marked *, which due to the sample achieved, are only reliable to within 10%, or when a result is highlighted in pink to indicate that the score can only be considered as indicative. Remember, ideally, scores should be above the red line; scores above the green line are good, and above the gold line are exceptional.

Criteria which have not yet been surveyed in at least 30 schools do not yet have an average figure, and therefore, these scores cannot be weighted against what pupils "usually" say. These unweighted scores are marked *.

The previous survey was completed in the school year ending in 2010. Results quoted from the previous survey may show small differences from those originally given, as the weightings applied change slightly from one year to the next.

Academic Criteria

Academic subjects	Weighted Score %	Previous Survey	% Change
Psychology	81.4		
Spanish	81.0	61.4	+19.6
Sociology	80.4		
* Photography	79.7		
Business Studies	79.6		
Technology	79.1	67.0	+12.1
ICT	77.9	61.1	+16.8
Art	77.8	67.8	+10.0
RE	77.5	68.9	+8.7
Mathematics	77.1	65.6	+11.6
Music	76.9	61.9	+15.0
English	76.7	67.6	+9.1
PE	76.4	66.9	+9.5
Science	75.6	71.0	+4.6
Geography	75.2	65.9	+9.3
* Philosophy and Ethics	75.0		
* French	74.0	56.3	+17.7
History	73.1	70.5	+2.6
Health and Social Care	72.4		

Only highlighted changes should be considered significant.

* - not weighted by average of similar schools

* - only reliable to within 10%

Subject scores in **Pink** should only be considered indicative.

Core Parent Priorities

Criteria	Weighted Score %	Previous Survey	% Change
Careers advice	84.2	66.8	+17.5
Levels of homework	81.8	63.4	+18.4
School communication	81.6	62.2	+19.4
School discipline	79.3	63.4	+15.9
Control of bullying	79.0	61.0	+18.0
Developing potential	78.5	60.5	+18.1
Availability of resources	78.4	65.3	+13.1
Caring teachers	78.3	61.6	+16.7
Developing moral values	78.0	58.5	+19.4
School security	77.6	59.9	+17.7
Community spirit	77.2	60.4	+16.9
Truancy control	76.9	65.3	+11.5
Exam results	76.4	63.6	+12.8
Developing confidence	75.7	61.7	+14.0
Teaching quality	75.6	59.8	+15.8
Social health education	75.6	58.5	+17.1
Happiness of child	74.5	63.6	+10.9
Computer access	73.9	67.8	+6.1
Choice of subjects	72.7	62.4	+10.3
School facilities	71.1	56.4	+14.6
"Overall" Rating	82.1	68.5	+13.7

Only highlighted changes should be considered significant.

Happy Versus Unhappy Parents

Judging performance based solely on the mean score allows for error. It is possible that the views of parents might be polarised so that positive and negative scores cancel each other out. It is therefore useful to conduct a method of analysis which identifies the % of parents who are unhappy with the School's performance for the criteria surveyed. The list identifies the % of parents giving a rating of "poor" or "very poor" for each criterion. For balance, the % rating "good" or "very good" has also been given. These results do not include respondents who failed to answer this question, or who ticked "I don't know".

Academic Subjects

Criteria	% rating "poor" or "very poor"	Previous Survey	Change	% rating "good" or "very good"
Technology	0.0%	9.0%	-9.0	82.6%
Spanish	3.5%	19.3%	-15.8	83.8%
Mathematics	5.1%	10.8%	-5.8	82.8%
French	5.5%	27.5%	-22.0	63.3%
English	5.9%	8.7%	-2.9	79.1%
PE	6.1%	10.8%	-4.8	78.6%
Geography	7.2%	5.6%	+1.5	69.9%
Science	7.3%	8.3%	-1.0	76.7%
ICT	9.8%	15.0%	-5.2	70.9%
History	10.7%	5.0%	+5.7	75.4%
RE	10.9%	9.7%	+1.3	67.8%
Art	11.4%	8.0%	+3.4	76.5%
Music	13.9%	19.9%	-6.0	63.5%

Happy Versus Unhappy Parents

Core Parent Priorities

Criteria	% rating "poor" or "very poor"	Previous Survey	Change	% rating "good" or "very good"
Truancy control	1.1%	5.9%	-4.8	92.3%
Teaching quality	1.5%	9.8%	-8.3	81.2%
Exam results	1.6%	8.9%	-7.3	84.7%
School discipline	1.8%	10.3%	-8.5	87.0%
Caring teachers	2.7%	14.3%	-11.6	81.6%
Happiness of child	2.8%	8.1%	-5.3	85.2%
Developing moral values	2.8%	17.7%	-14.9	75.6%
School security	3.3%	14.6%	-11.3	85.5%
Availability of resources	3.7%	12.3%	-8.6	80.1%
Computer access	4.5%	6.0%	-1.5	82.8%
Developing potential	4.6%	15.4%	-10.8	84.7%
Choice of subjects	5.6%	9.8%	-4.3	79.7%
Careers advice	5.7%	18.2%	-12.5	75.8%
Social health education	5.9%	17.4%	-11.5	77.0%
School communication	6.2%	19.9%	-13.7	78.4%
School facilities	6.6%	21.3%	-14.6	68.3%
Developing confidence	7.0%	10.4%	-3.4	80.5%
Levels of homework	7.3%	18.6%	-11.3	71.8%
Community spirit	7.9%	17.9%	-10.0	71.7%
Control of bullying	9.0%	18.3%	-9.3	73.9%
"Overall" Score	0.3%	7.2%	-6.9	91.6%

Additional Criteria

Additional criteria were chosen from a menu, and investigated with regard to parent satisfaction and the following results were achieved with regard to those parents who answered the question. The percentage scores are given in descending order. For those areas that have been surveyed by at least 30 schools, the Appendix shows the average of similar schools.

In the table below, the "unhappy" parents are those who gave a score of 1 or 2, i.e. poor or very poor. The "happy" parents are those who gave a score of 4 or 5, i.e. good or very good.

Issue	Weighted Score %	Previous Survey	Change	% Unhappy	Previous Survey	Change	% Happy
Explaining to parents how to help their child	88.1	66.8	+21.2	5.7	19.5	-13.8	79.8
Encouraging and listening to parent views	83.6	63.1	+20.5	7.1	22.2	-15.1	77.4
Tailoring workload to child's needs and ability	82.1			4.9			75.4
Parents evening	81.4	68.4	+13.0	7.1	10.7	-3.7	81.1
School uniform	81.3			5.0			89.4
Encouraging and listening to pupil views	81.1	67.4	+13.8	5.1	14.6	-9.6	75.7
Access to staff	81.0	60.2	+20.8	3.9	19.7	-15.8	79.3
Treating all pupils fairly and equally	80.9	63.7	+17.2	6.6	19.6	-13.0	75.1
Handling complaints	80.3	59.2	+21.1	5.5	22.0	-16.5	79.1
Regular marking of work	79.9	60.3	+19.5	7.9	23.6	-15.7	73.7
Ensuring pupils do best and make good progress	78.6	66.2	+12.4	3.0	8.1	-5.1	83.7
School's image in the local community	78.1			5.1			76.1
Celebrating and rewarding achievement	77.1	67.9	+9.2	3.1	6.5	-3.4	86.4
Quality of school management	76.4	63.2	+13.2	2.3	10.3	-8.0	85.9
Transport to and from school	76.1			8.1			70.9
Looking after pupils well	73.2			4.4			79.0
Written reports	70.0			9.0			73.0

Importance Ratings

Ideally those criteria which are most important to parents will be the criteria to which parents award the highest scores.

In the following table, the first column shows the percentage of parents who chose each of the criteria as one of their ten choices of what they felt was most important to them. The second column shows how well the school performs for the criteria, ie. 1st = what the school does best, 20th = what the school does least well.

Tip - Remember, green is good, red is bad

	Importance Score (%)	Ranking
School discipline	88.4%	(4th)
Control of bullying	75.7%	(5th)
Teaching quality	75.0%	(15th)
Happiness of child	68.6%	(17th)

Parents' Comments

The specific comments of parents, which occurred on more than one occasion, were as follows.

Many of the parent comments were very positive and many of the negative comments were qualified in light of the parents' overall satisfaction with the school.

The parents were enthusiastic in the number of comments that they made and the comments were diverse in their nature.

Many of the parents who commented said how happy and confident their children had been since starting at President Kennedy School.

Fifty nine parents were pleased with the overall performance of the school. Nineteen parents commented on the good progress their child had made since joining. Fourteen parents believed the school had improved. Six parents were delighted their child had settled in well. Six parents believed improvements to the school facilities could be beneficial. Two parents praised the school management.

Fourteen parents were pleased with the overall standard of education provided; two parents believed the standard varied. Six parents felt that more could be done to enable their child to reach their full potential whilst two parents were delighted their child had been positively challenged. Five parents praised the support their child had received. Three parents expressed concerns with regard to the alleged poor attitude shown by some members of staff. Three parents praised staff members with some referring to them as committed and supportive. Two parents suggested the school do more to encourage children. Two parents expressed disappointment at alleged incidents of favouritism shown by some members of staff towards certain students.

Six parents believed that communication between the school and parents needed to improve whilst four parents were pleased with the information received. Three parents were pleased with the way in which the school handled their concerns. Two parents felt the school could do more to listen to the views of students.

Six parents suggested that more could be done to improve school toilet facilities.

Three parents considered the reward system to be in need of improvement. Two parents commented on the disruptive behaviour of some students, and the seeming lack of control in class. Two parents felt that the school needed to take a stronger approach to discipline.

Three parents expressed disappointment that they were unable to see all of their child's subject tutors at parents evening.

Three parents praised 'the Bridge'.

The following comments were received but in lower numbers than those mentioned on the previous page.

Two parents believed the school could do more to monitor homework completion.

Two parents were pleased with the school uniform policy.

Two parents were happy with the provision of extra-curricular activities. Two parents requested a wider range of activities be made available.

Two parents suggested that more could be done to improve the provision of careers advice.

Strengths and Weaknesses

The following areas are those in which the school had the highest and lowest perceived standards of performance (based on mean percentage scores). The relative importance score and its position are given in brackets. Remember, **gold** is outstanding; **green** - good; **black** - requires improvement, and **red** - inadequate

Relative Strengths - academic

- * **81.4%** **Psychology**
- 81.0%** **Spanish**
- * **80.4%** **Sociology**
- * **79.7%** **Photography**
- * **79.6%** **Business Studies**

Relative Weaknesses - academic

- * **72.4%** **Health and Social Care**
- 73.1%** **History**
- 74.0%** **French**
- * **75.0%** **Philosophy and Ethics**
- 75.2%** **Geography**

Relative Strengths - selected performance criteria

Importance

84.2%	Careers advice	(44.0%)	13th

75.6%	Social health education	(15.4%)	20th

Note: even the relative weaknesses achieved good scores

Criteria scores marked with a **Pink *** should only be considered indicative.

Every Child Matters

The headings below are the 5 "Every Child Matters" outcomes. For each of the outcomes, we have given the weighted parental scores for any relevant criteria included on your questionnaire.

Remember, for grading comparisons with our colour coded system:

Gold	= Outstanding	= Grade 1
Green	= Good	= Grade 2
Black	= Satisfactory	= Grade 3
Red	= Inadequate	= Grade 4

It is now also possible to have split grades. If your grade is close to the boundary above, this is indicated with a + (plus). If your grade is close to the boundary below, this is indicated with a - (minus).

<u>1. Being Healthy:</u>	Physical Education	76.4%
	Social health education	75.6%
	Healthy lifestyle - Exercise	69.0%
	Healthy lifestyle - Diet	60.6%

Your average parental grade for this section = 2.3 = Good = **Grade 2**

<u>2. Staying Safe:</u>	Access to staff	81.0%
	Treating all pupils fairly and equally	80.9%
	Control and prevention of bullying	79.0%
	Caring/approachable attitude of teachers	78.3%
	School security/safety	77.6%

Your average parental grade for this section = 1.0 = Outstanding = **Grade 1**

<u>3. Enjoying and Achieving:</u>	School discipline/good behaviour	79.3%
	Developing potential	78.5%
	Developing strong moral values in pupils	78.0%
	Community spirit	77.2%
	Celebrating and rewarding achievement	77.1%
	Developing self confidence/esteem	75.7%
	Social health education	75.6%
	Happiness of child	74.5%

Your average parental grade for this section = 1.1 = Outstanding = **Grade 1**

Every Child Matters (continued..)

<u>4. Making a Positive Contribution:</u>	Treating all pupils fairly and equally	80.9%
	School discipline/good behaviour	79.3%
	Developing moral values	78.0%
	Community spirit	77.2%
	Social health education	75.6%

Your average parental grade for this section = 1.0 = Outstanding = **Grade 1**

<u>5. Economic Well-being:</u>	Careers advice and guidance	84.2%
	Business Studies	79.6%
	Developing a pupil's potential	78.5%
	ICT	77.9%
	Community spirit	77.2%
	Mathematics	77.1%
	English	76.7%
	Exam results	76.4%
	Social health education	75.6%

Your average parental grade for this section = 1.4 = Outstanding = **Grade 1 (-)**

Summary Grade - Every Child Matters

Your average parental grade for "Every Child Matters" = 1.4 = Outstanding = **Grade 1 (-)**

Parent View Summary

Below are the 12 "Parent View" questions. For each of the questions, we have given the weighted parental scores for any relevant criteria included on your questionnaire.

Remember, **gold** is outstanding; **green** - good; **black** - requires improvement, and **red** - inadequate, in terms of parental perceptions.

	<u>Score</u>	<u>Sample Size</u>
<u>1. My child is happy at this school:</u>		
Happiness of child	74.5%	329
<u>2. My child feels safe at this school:</u>		
Control of bullying	79.0%	324

Quality of school management	76.4%	296
<u>10. This school responds well to any concern I raise:</u>		
Encouraging and listening to parent views	83.6%	306
Handling complaints	80.3%	287
Caring teachers	78.3%	324
<u>11. I receive valuable information from the school about my child's progress:</u>		
Parents evening	81.4%	328
Explaining to parents how to help their child	88.1%	305
Regular marking of work	79.9%	304
Written reports	70.0%	273
<u>12. I would recommend this school to another parent:</u>		
Recommend this school	96.1%	282

ASCL Self-evaluation Summary

The September 2012 Ofsted evaluation schedule asserts the increased importance of a school's own self evaluation data as the starting point of the inspection process.

The following evidence summary is presented to allow schools to summarise their inspection self evaluation evidence under the four main judgments: Achievement, Teaching, Behaviour & Safety and Leadership. Also, the school's promotion of Spiritual, Moral, Social and Cultural Development (SMSC) is included, along with Overall Effectiveness.

The evidence is presented here under the format of the School Self-evaluation: Guidance for Schools document, created and promoted by ASCL. This format summarises your school's survey evidence into ASCL's writing frame structure. The evidence given here is only that achieved from this survey; it is vital that your evidence summary for Ofsted also considers any other evidence that you have gathered, either from other surveys or from internal measurement and observation.

The Judgement areas, plus an overall summary, are broken down into sub-criteria. Scores of 1 to 4 represent ratings of Outstanding, Good, Requires Improvement, and Inadequate, as used by ASCL. Where any area is found to be Inadequate then this rating will be given for the section as a whole. Criteria where evidence was just indicative rather than reliable are once again given in pink.

Remember, for grading comparisons with our colour coded system:

Gold	= Outstanding	= Grade 1
Green	= Good	= Grade 2
Black	= Requires Improvement	= Grade 3
Red	= Inadequate	= Grade 4

It is now also possible to have split grades. If your grade is close to the boundary above, this is indicated with a + (plus). If your grade is close to the boundary below, this is indicated with a - (minus).

N.B. According to Ofsted's "Framework for School Inspection", published in January 2012, "schools cannot be judged as 'outstanding' for overall effectiveness unless they have 'outstanding' teaching".

Achievement

Pupils' Learning and Progress Overall

Tailoring workload to child's needs and ability	82.1%	Outstanding
Ensuring pupils do best and make good progress	78.6%	Outstanding
Developing Potential	78.5%	Outstanding
Average of Academic Subject Ratings		Good
Exam results	76.4%	Outstanding

The Schools Promotion of Spiritual, Moral, Social and Cultural Development

Introduction

The school's promotion of students' spiritual, moral, social and cultural development is an element of the new framework, but there is no separate judgement and no specific criteria for evaluation. It is included here (as in the ASCL guidance) as an extra tool to help schools to evaluate the quality and impact of their SMSC work.

Personal insight and spiritual development

Developing potential	78.5%	Outstanding
Developing moral values	78.0%	Outstanding
Art	77.8%	Good
RE	77.5%	Good
Music	76.9%	Good
English	76.7%	Good

Summary Grade - SMSC Section

Your average parental grade for "SMSC" = 1.2 = Outstanding = **Grade 1**

To Reach the Next Grade

In order to continue to be Outstanding, the school needs to maintain or improve all criteria.

Overall Effectiveness

Summary

Achievement	1.4	Outstanding	Grade 1 (-)
Teaching	1.2	Outstanding	Grade 1
Behaviour and Safety	1.1	Outstanding	Grade 1
Leadership	1.5	Outstanding	Grade 1 (-)

Summary Grade - Overall Effectiveness

Your average parental grade for "Overall Effectiveness" = 1.3 = Outstanding = **Grade 1 (-)**

As part of your "Overall Effectiveness", you may also wish to take into account your grade for SMSC (see pg 52), as well as our assesment of how the parents rated the school for the 5 Every Child Matters Outcomes, (see pg 29). These scores are shown again here.

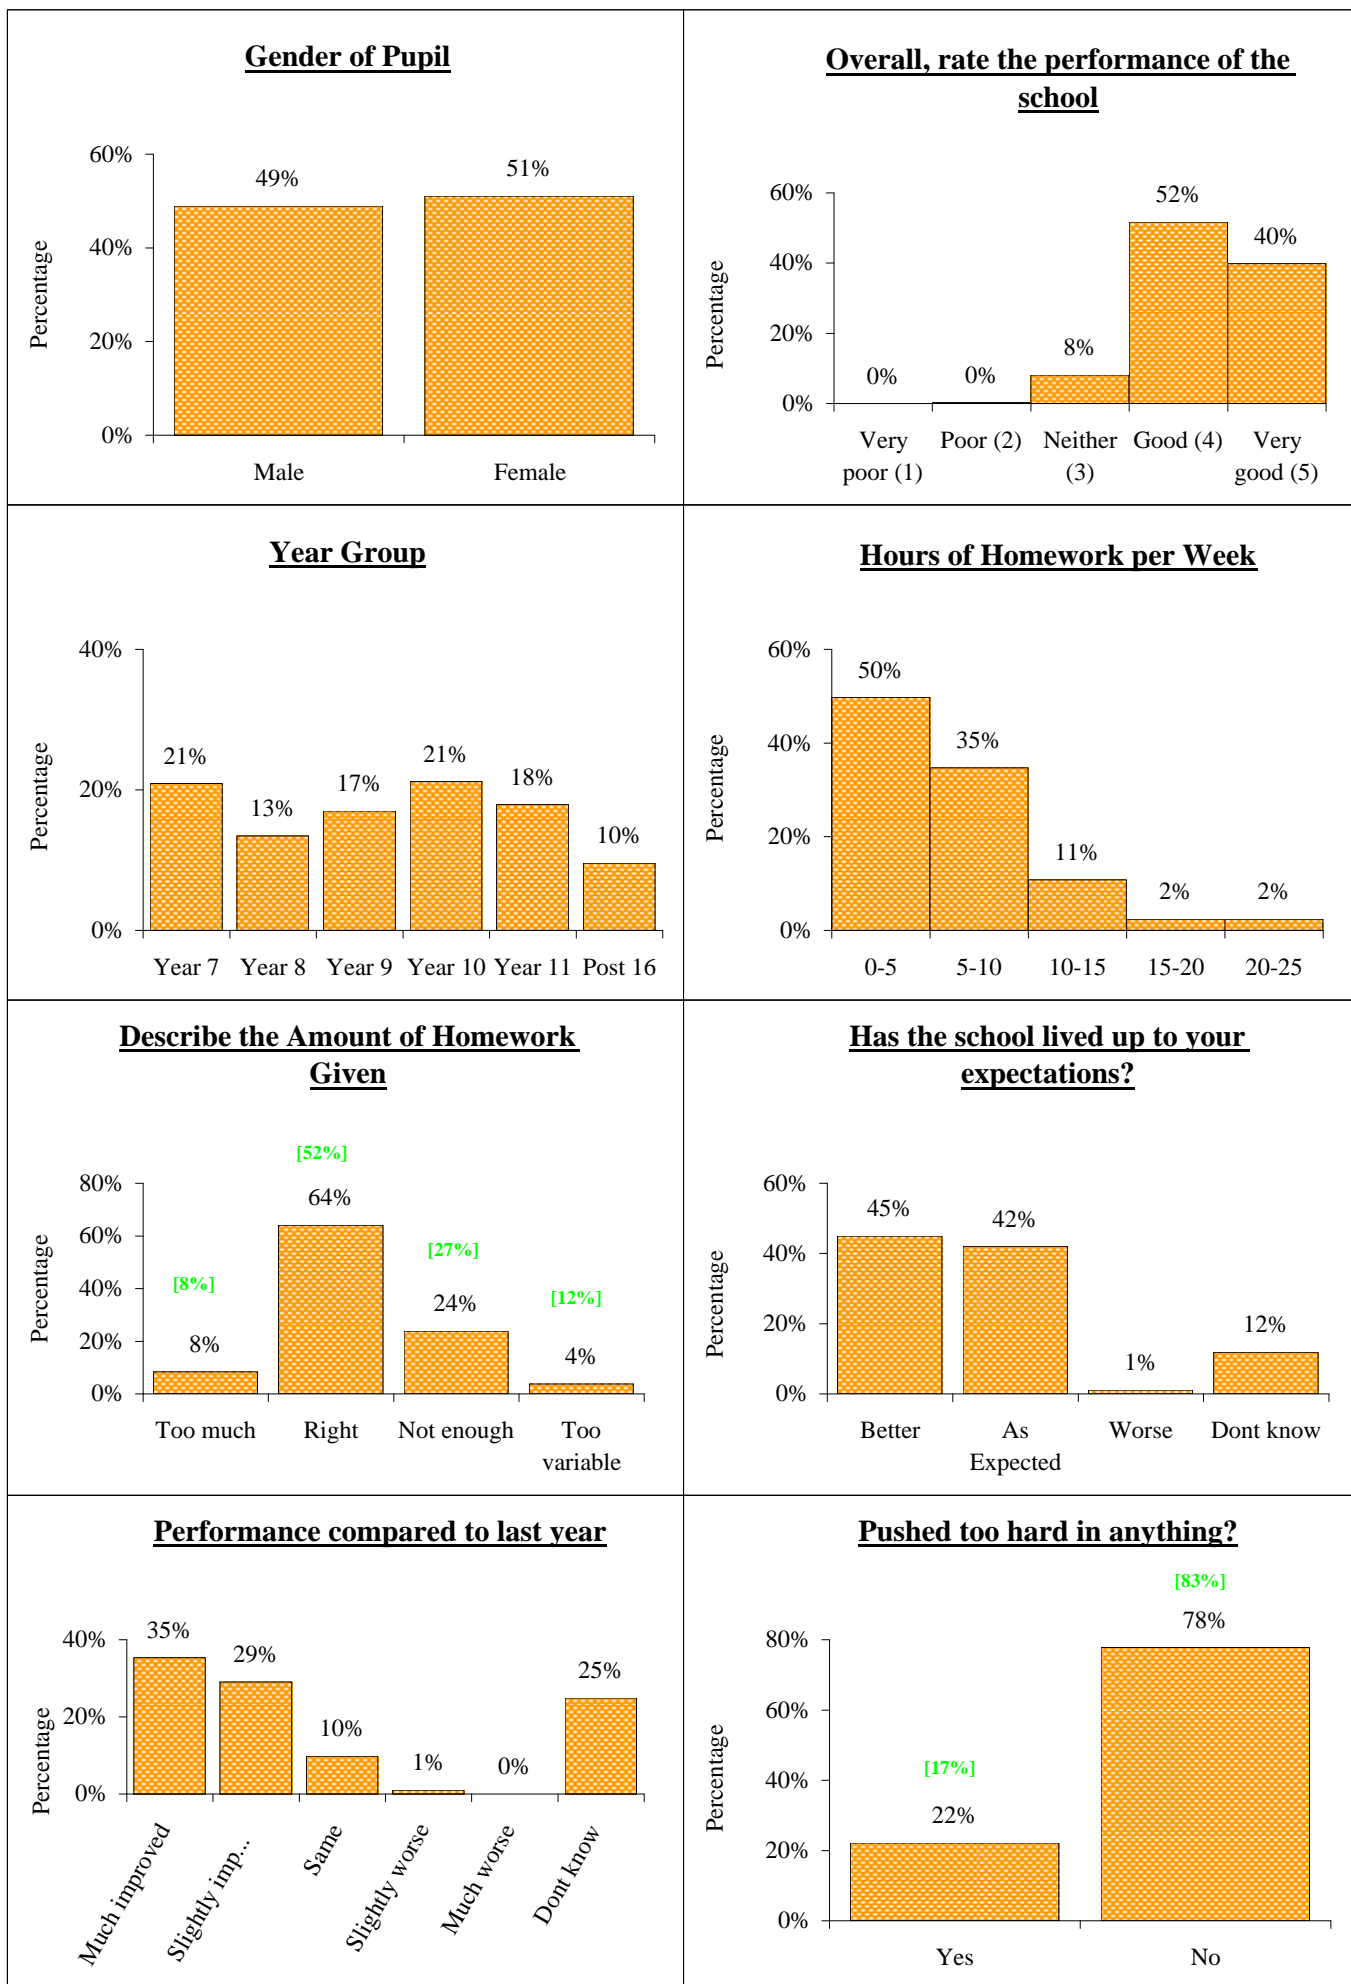

Spiritual, Moral, Social and Cultural Development	1.2	Outstanding	Grade 1
Your average parental grade for "Every Child Matters"	1.4	Outstanding	Grade 1 (-)

To Reach the Next Grade

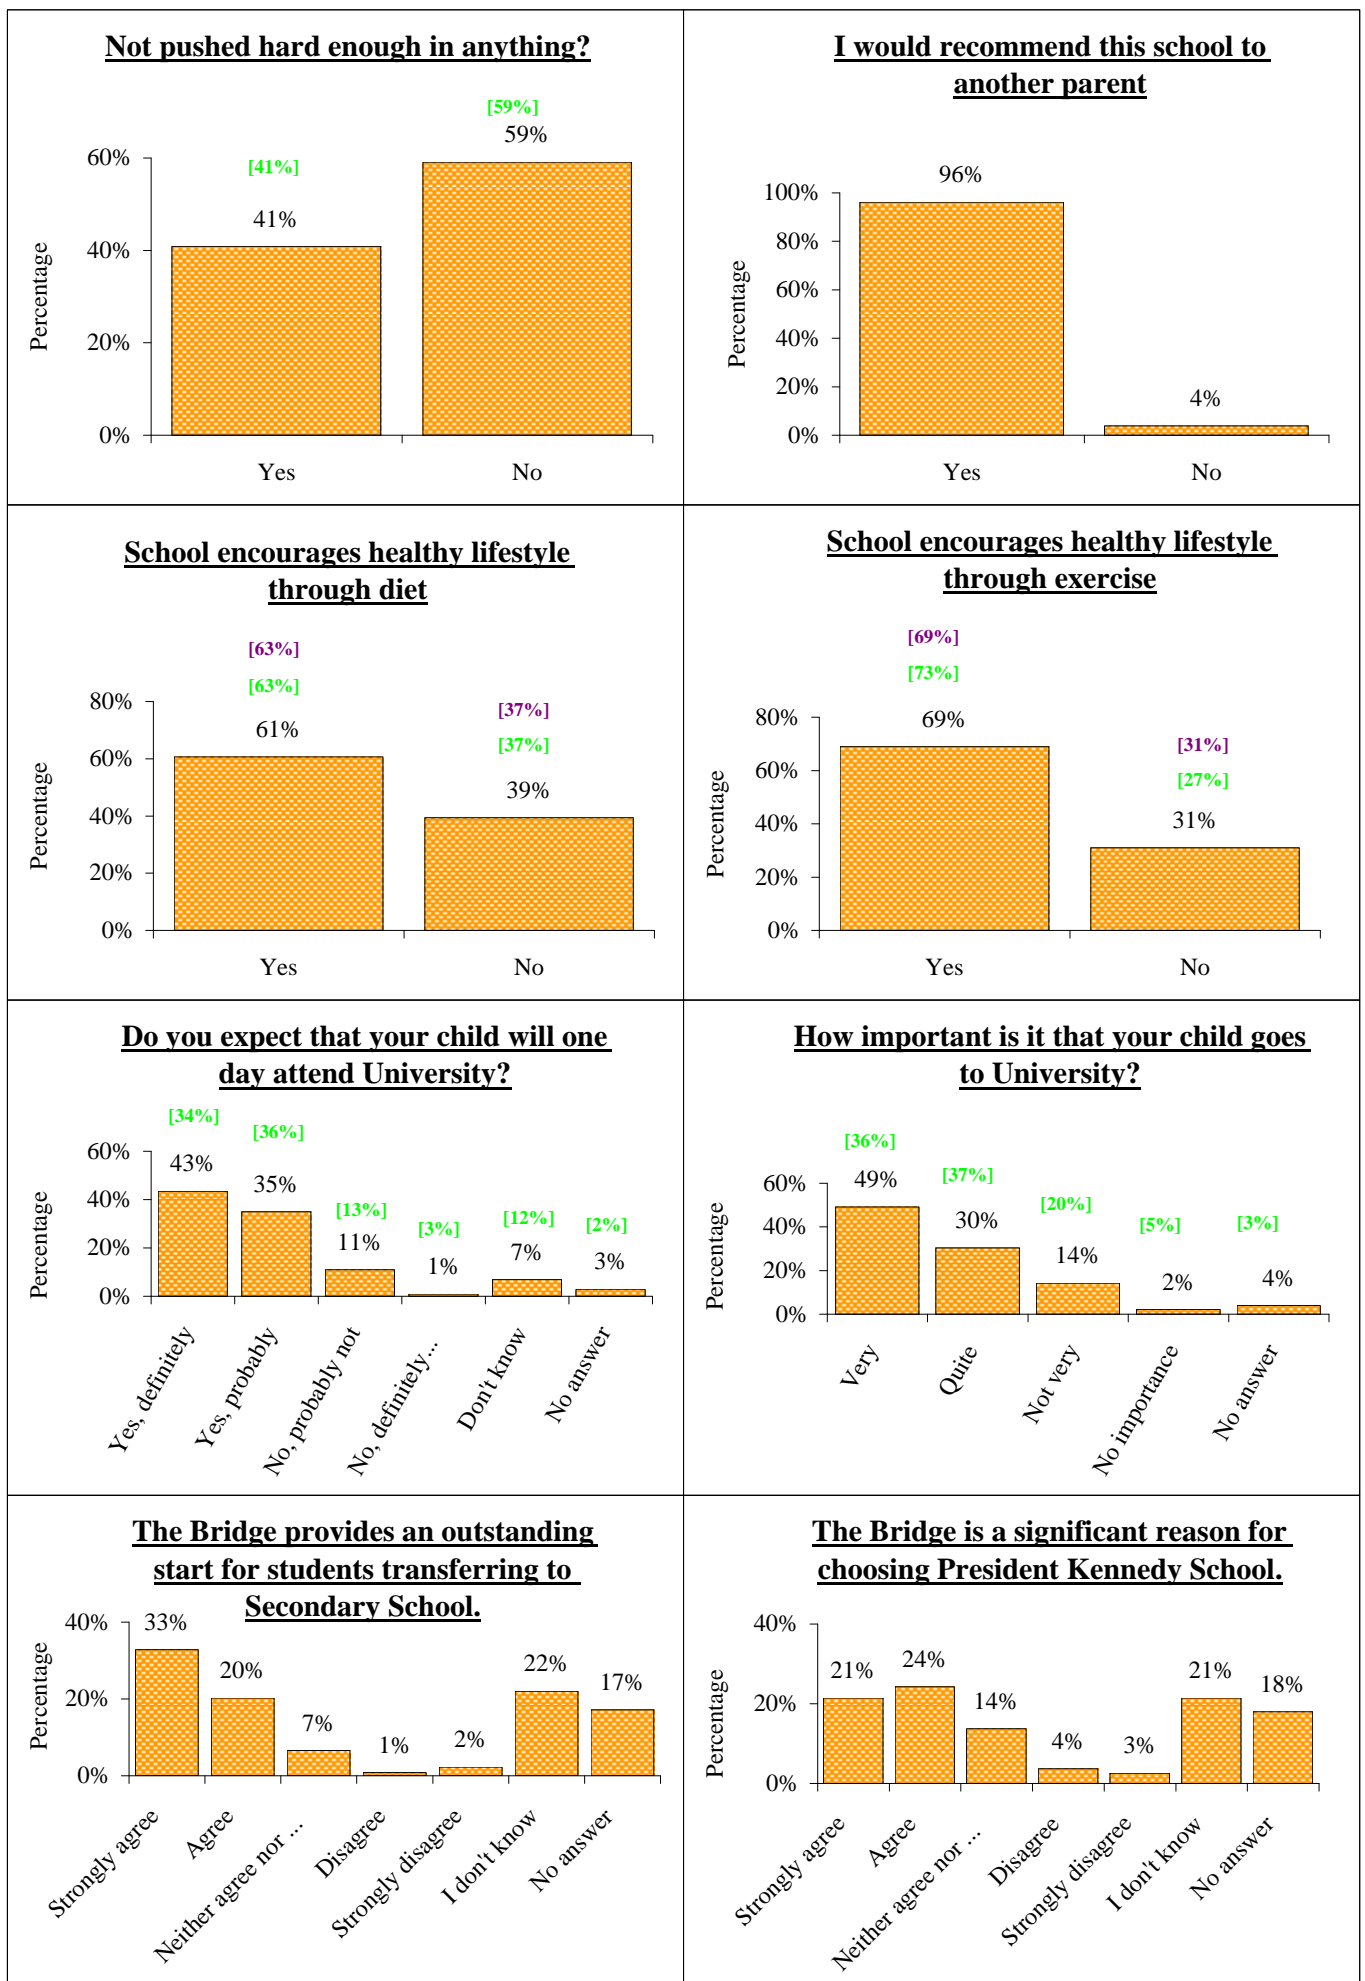

In order to continue to be Outstanding, the school needs to maintain or improve all criteria.

Graphical Analysis of Results for all Questions and Criteria

Where a National Average figure is quoted, this is an average from similar schools.

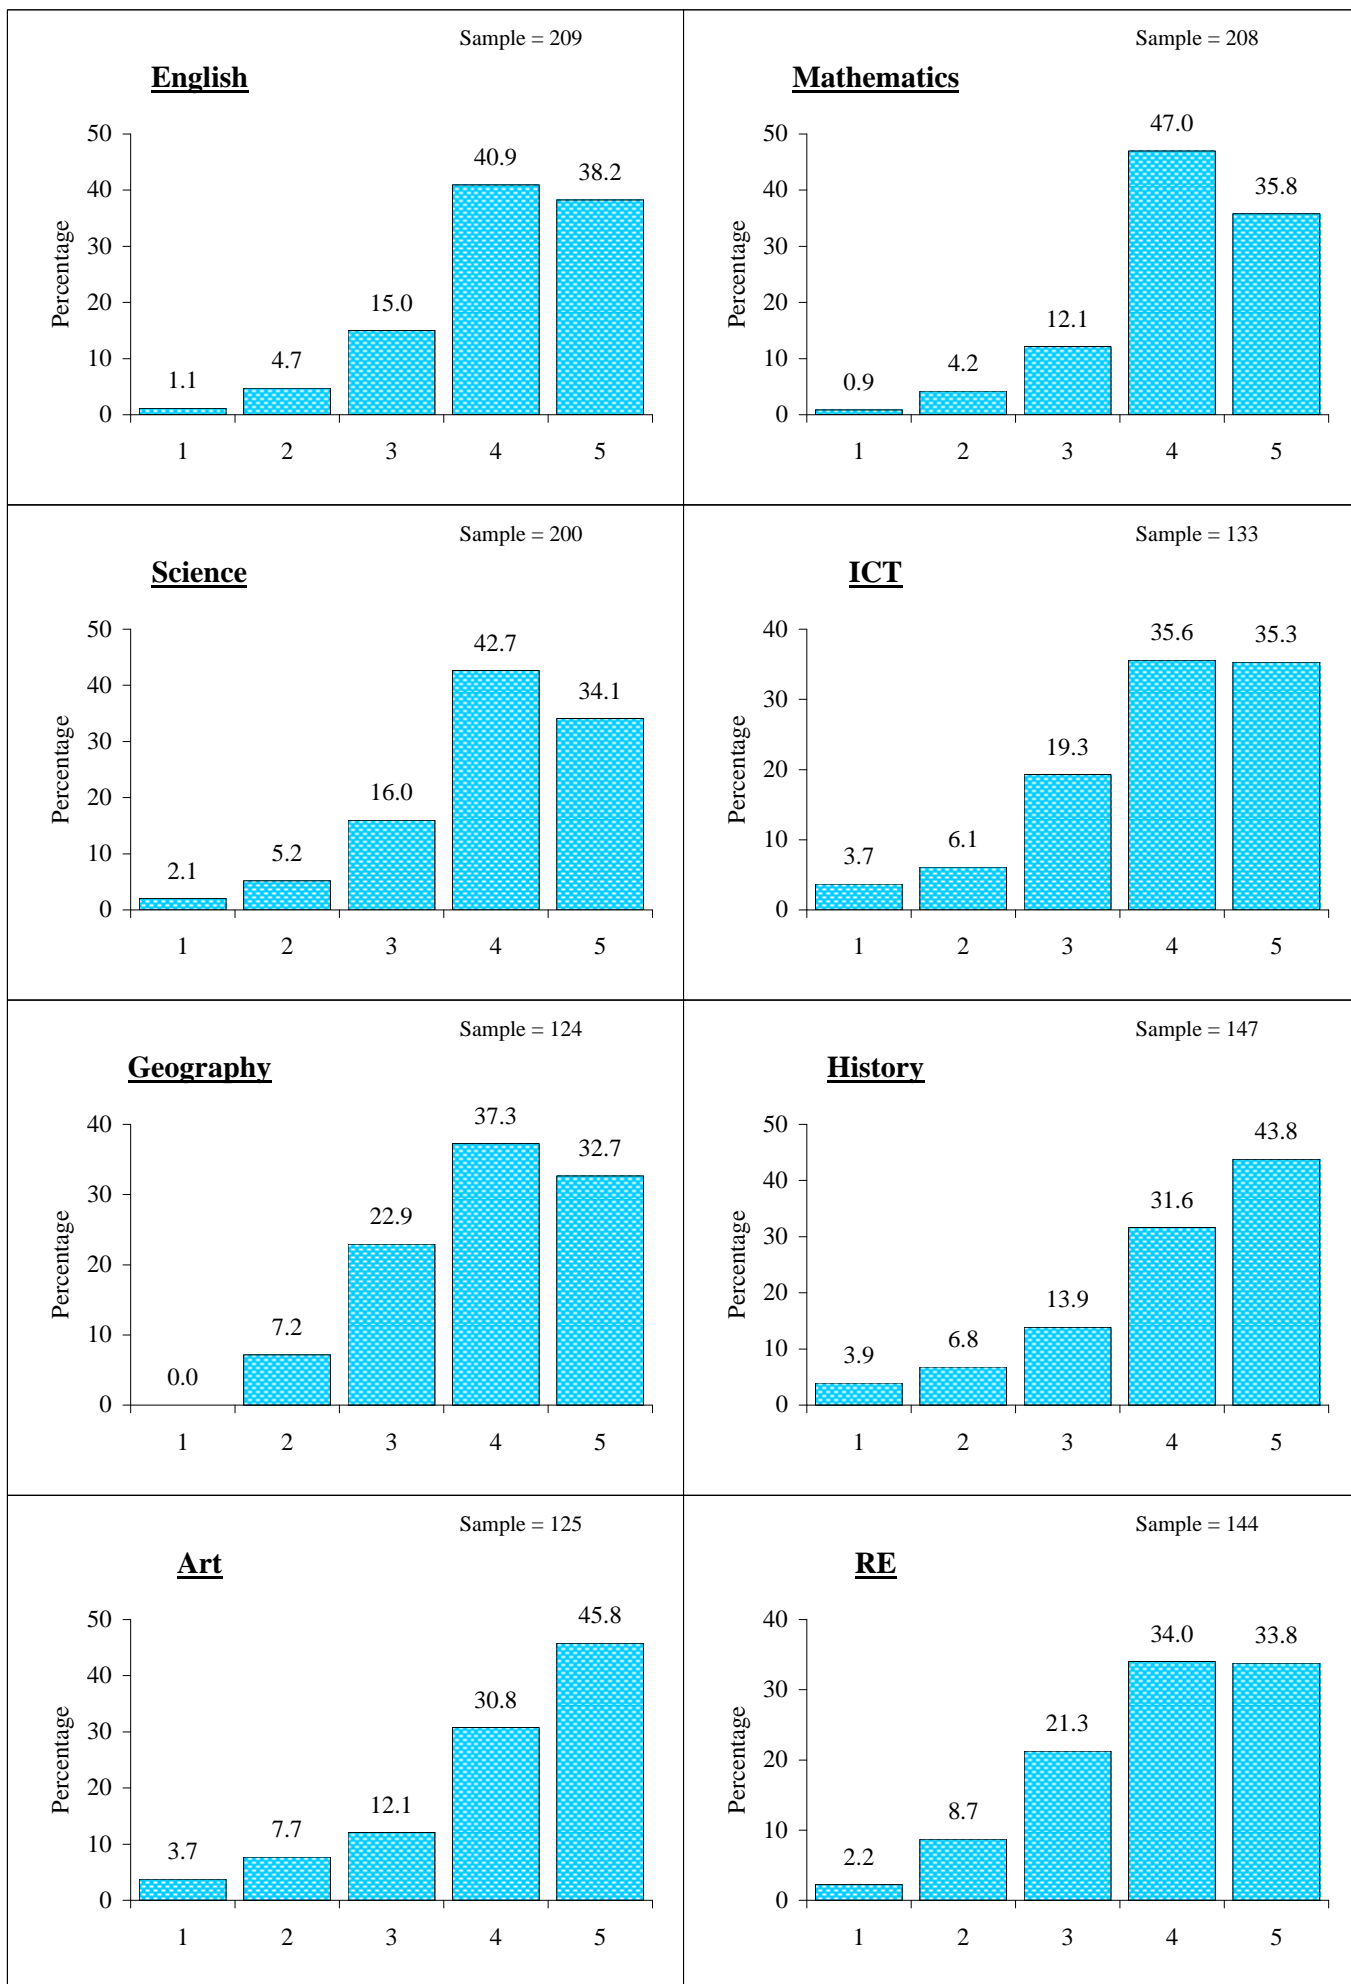

Average figures from similar schools are given in [brackets].

Average figures from similar schools are given in [brackets].

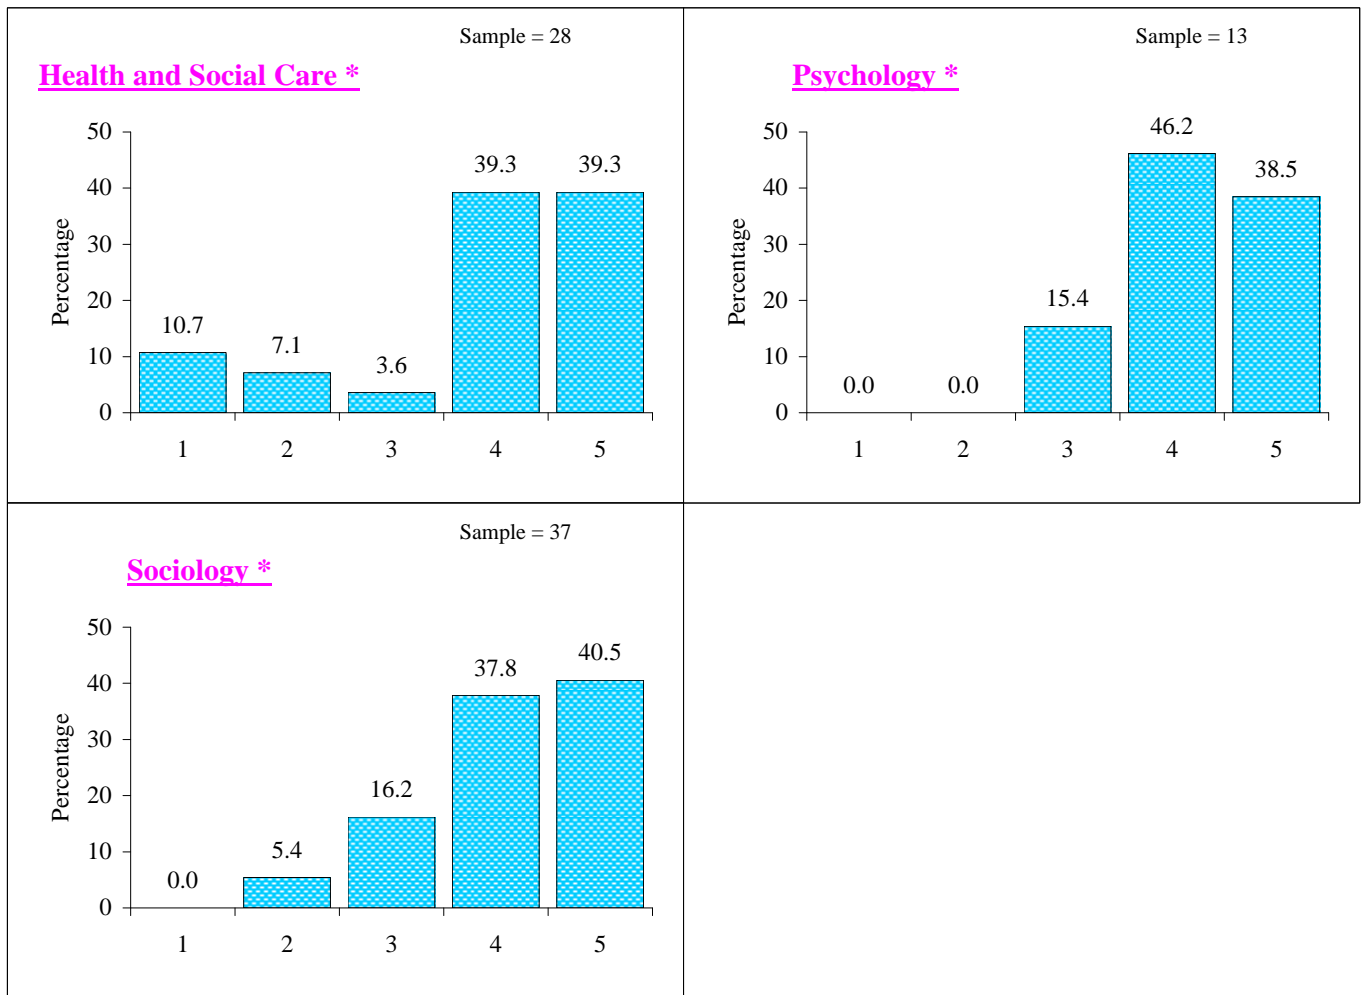

Bar Chart Results

The following Bar Charts show the percentage of parents answering each question who gave a score from 1 - 5, where 1 represents "very poor" and 5 represents "very good". The following graphs have been adjusted to be representative of year group size and gender.

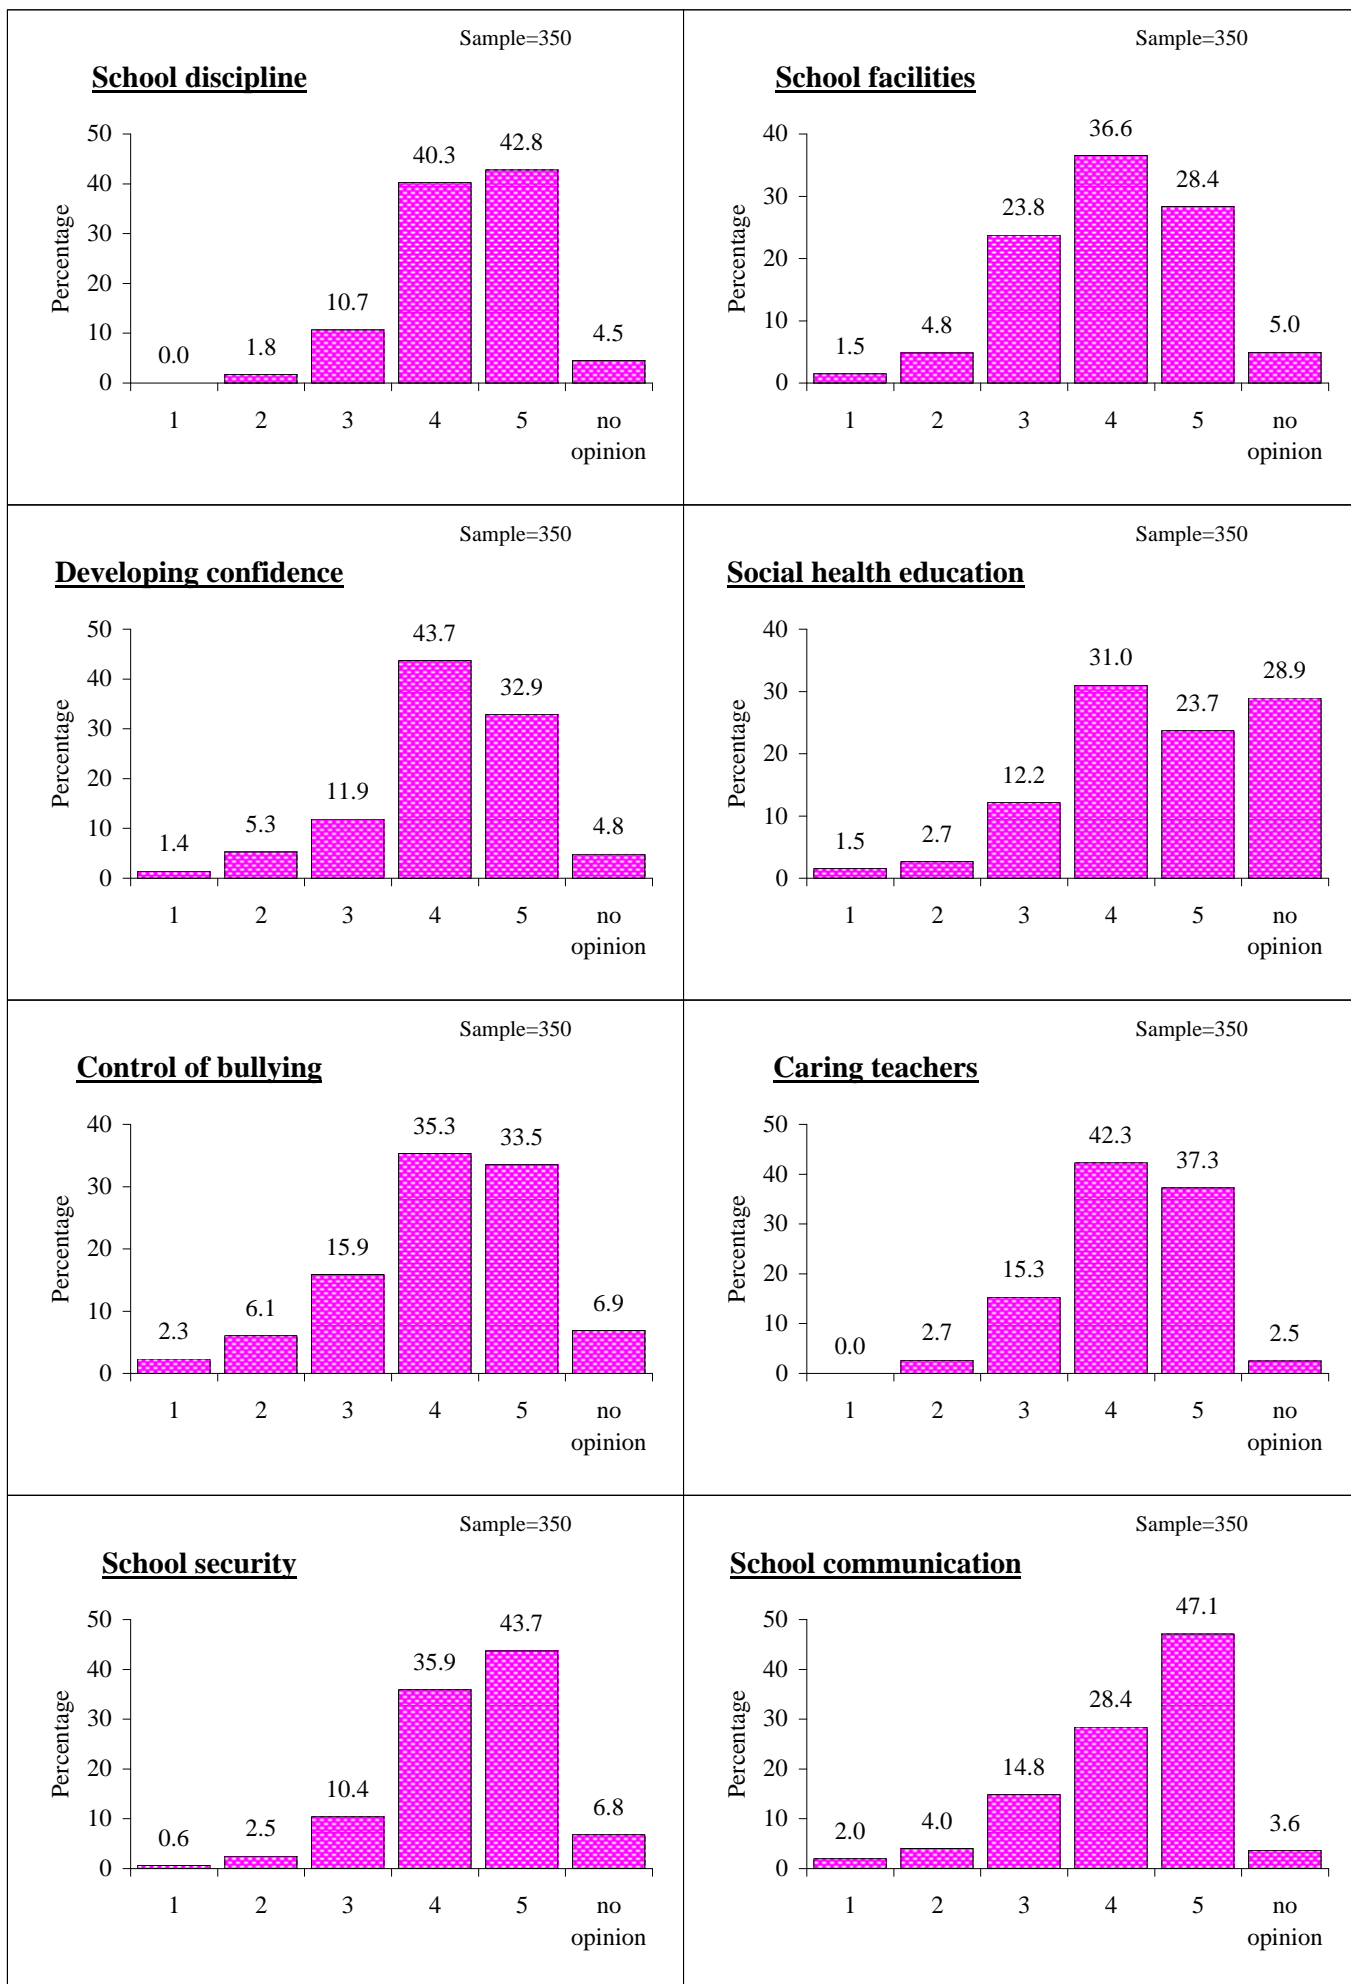

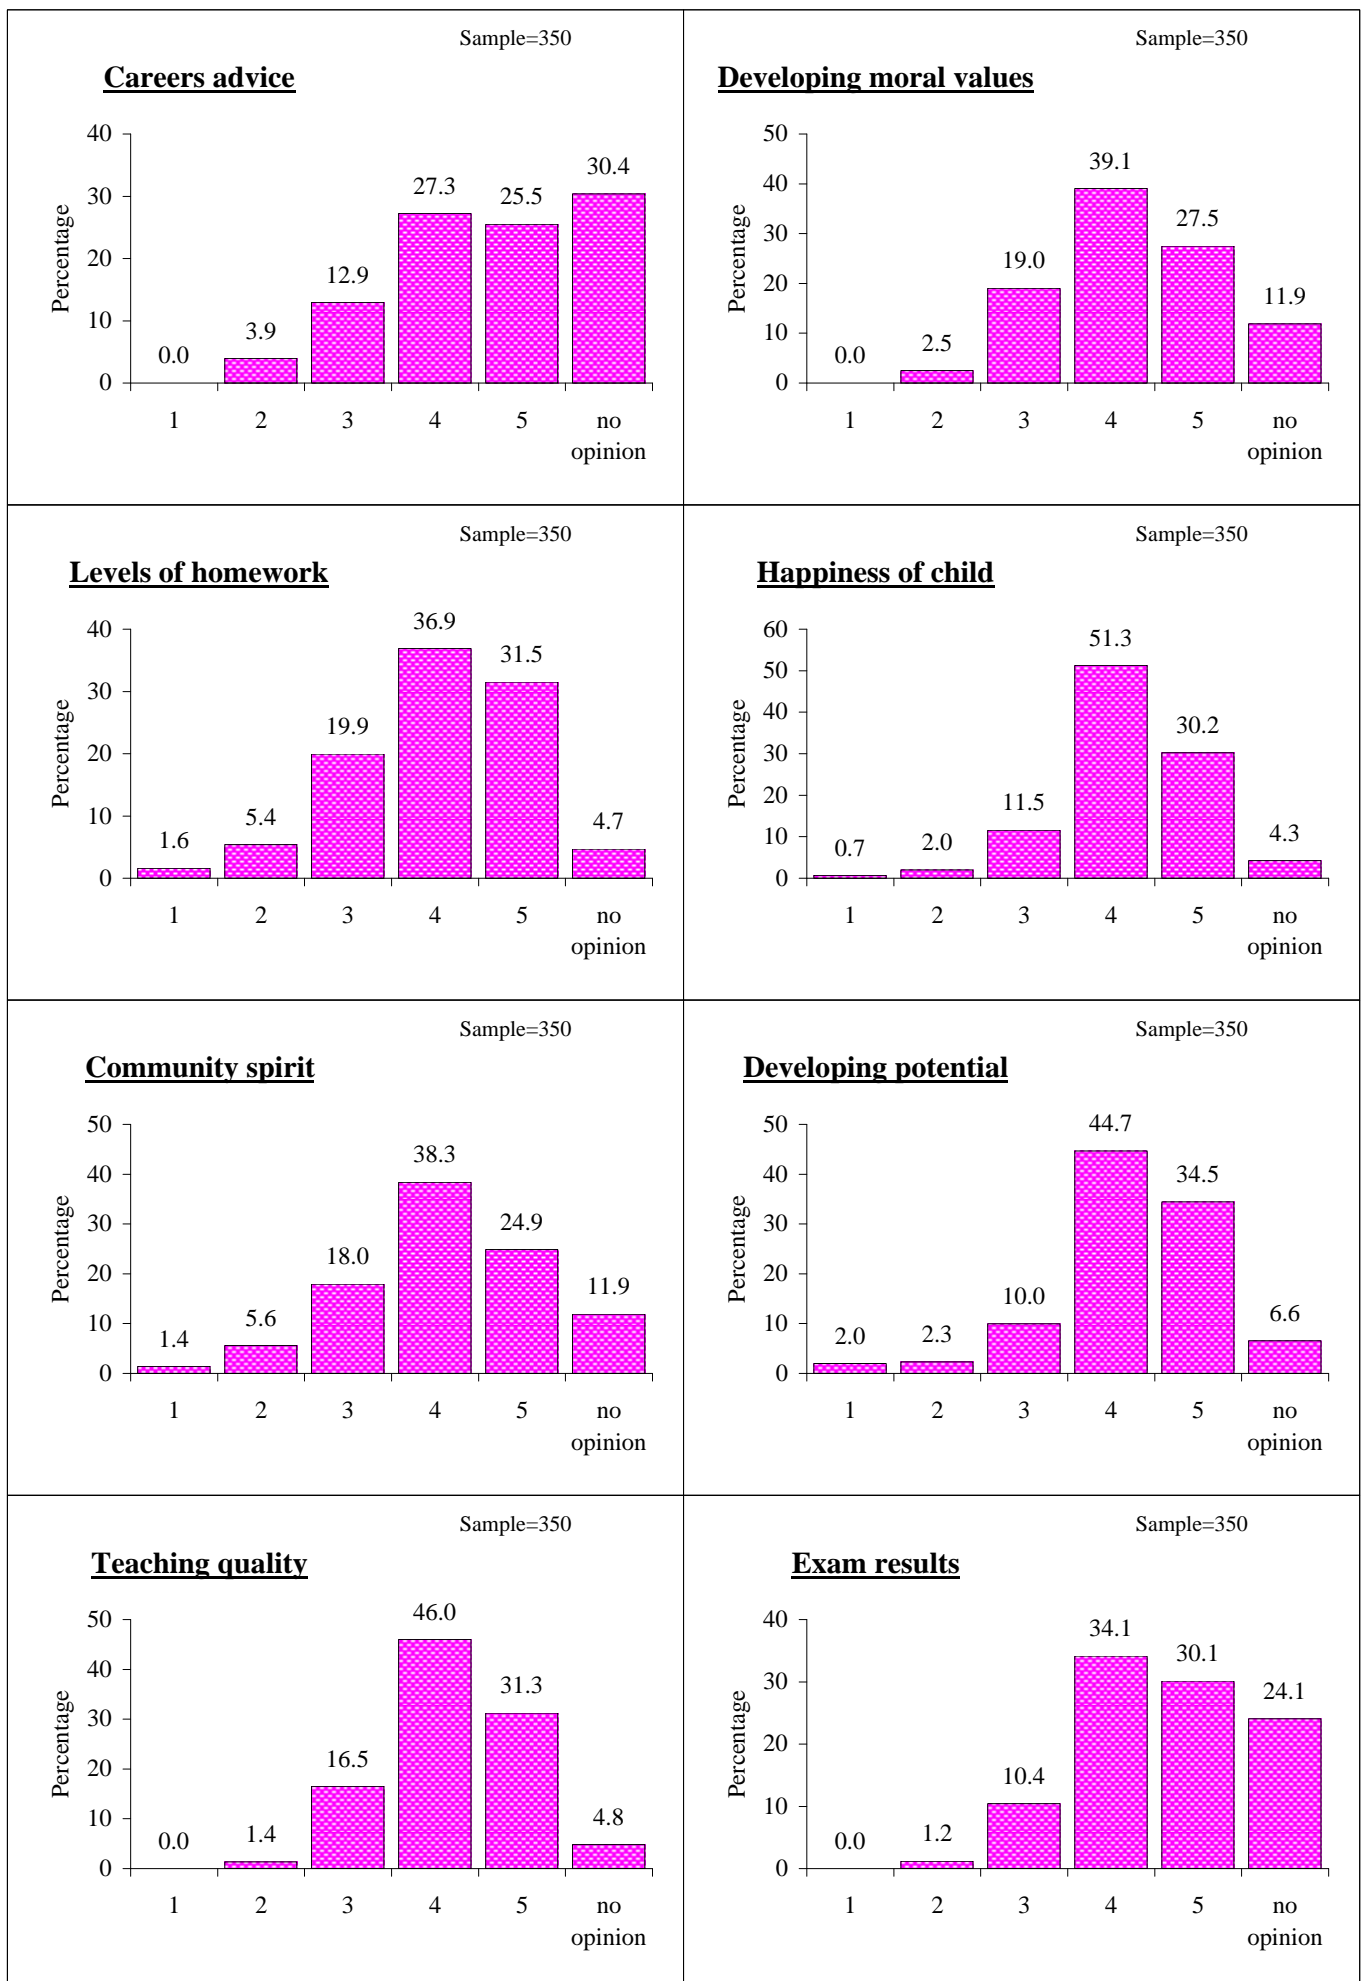

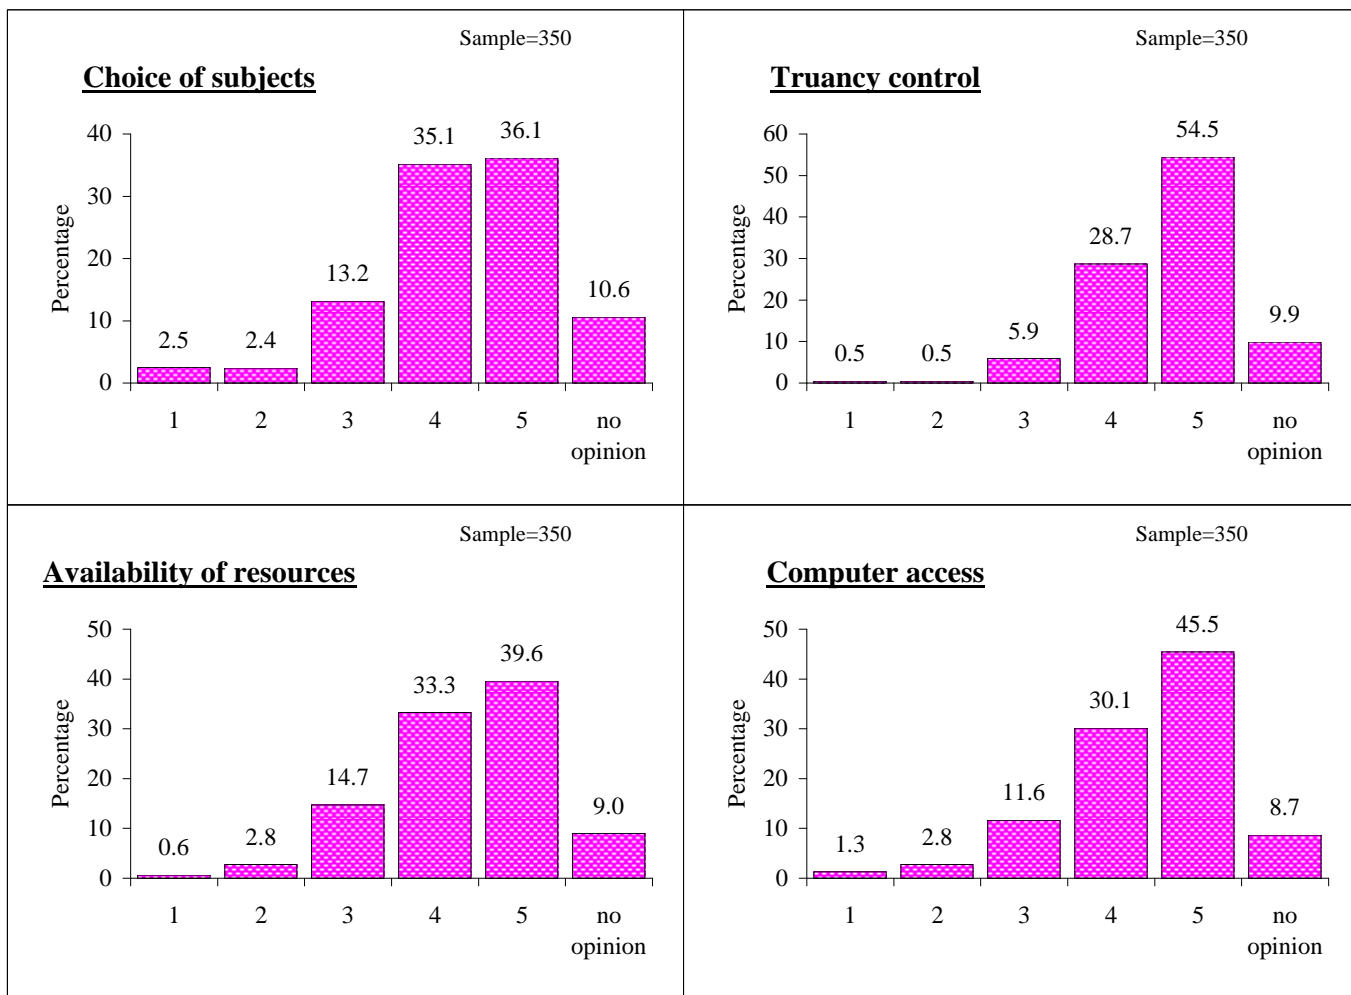

Subjects marked in **Pink** should only be considered indicative.

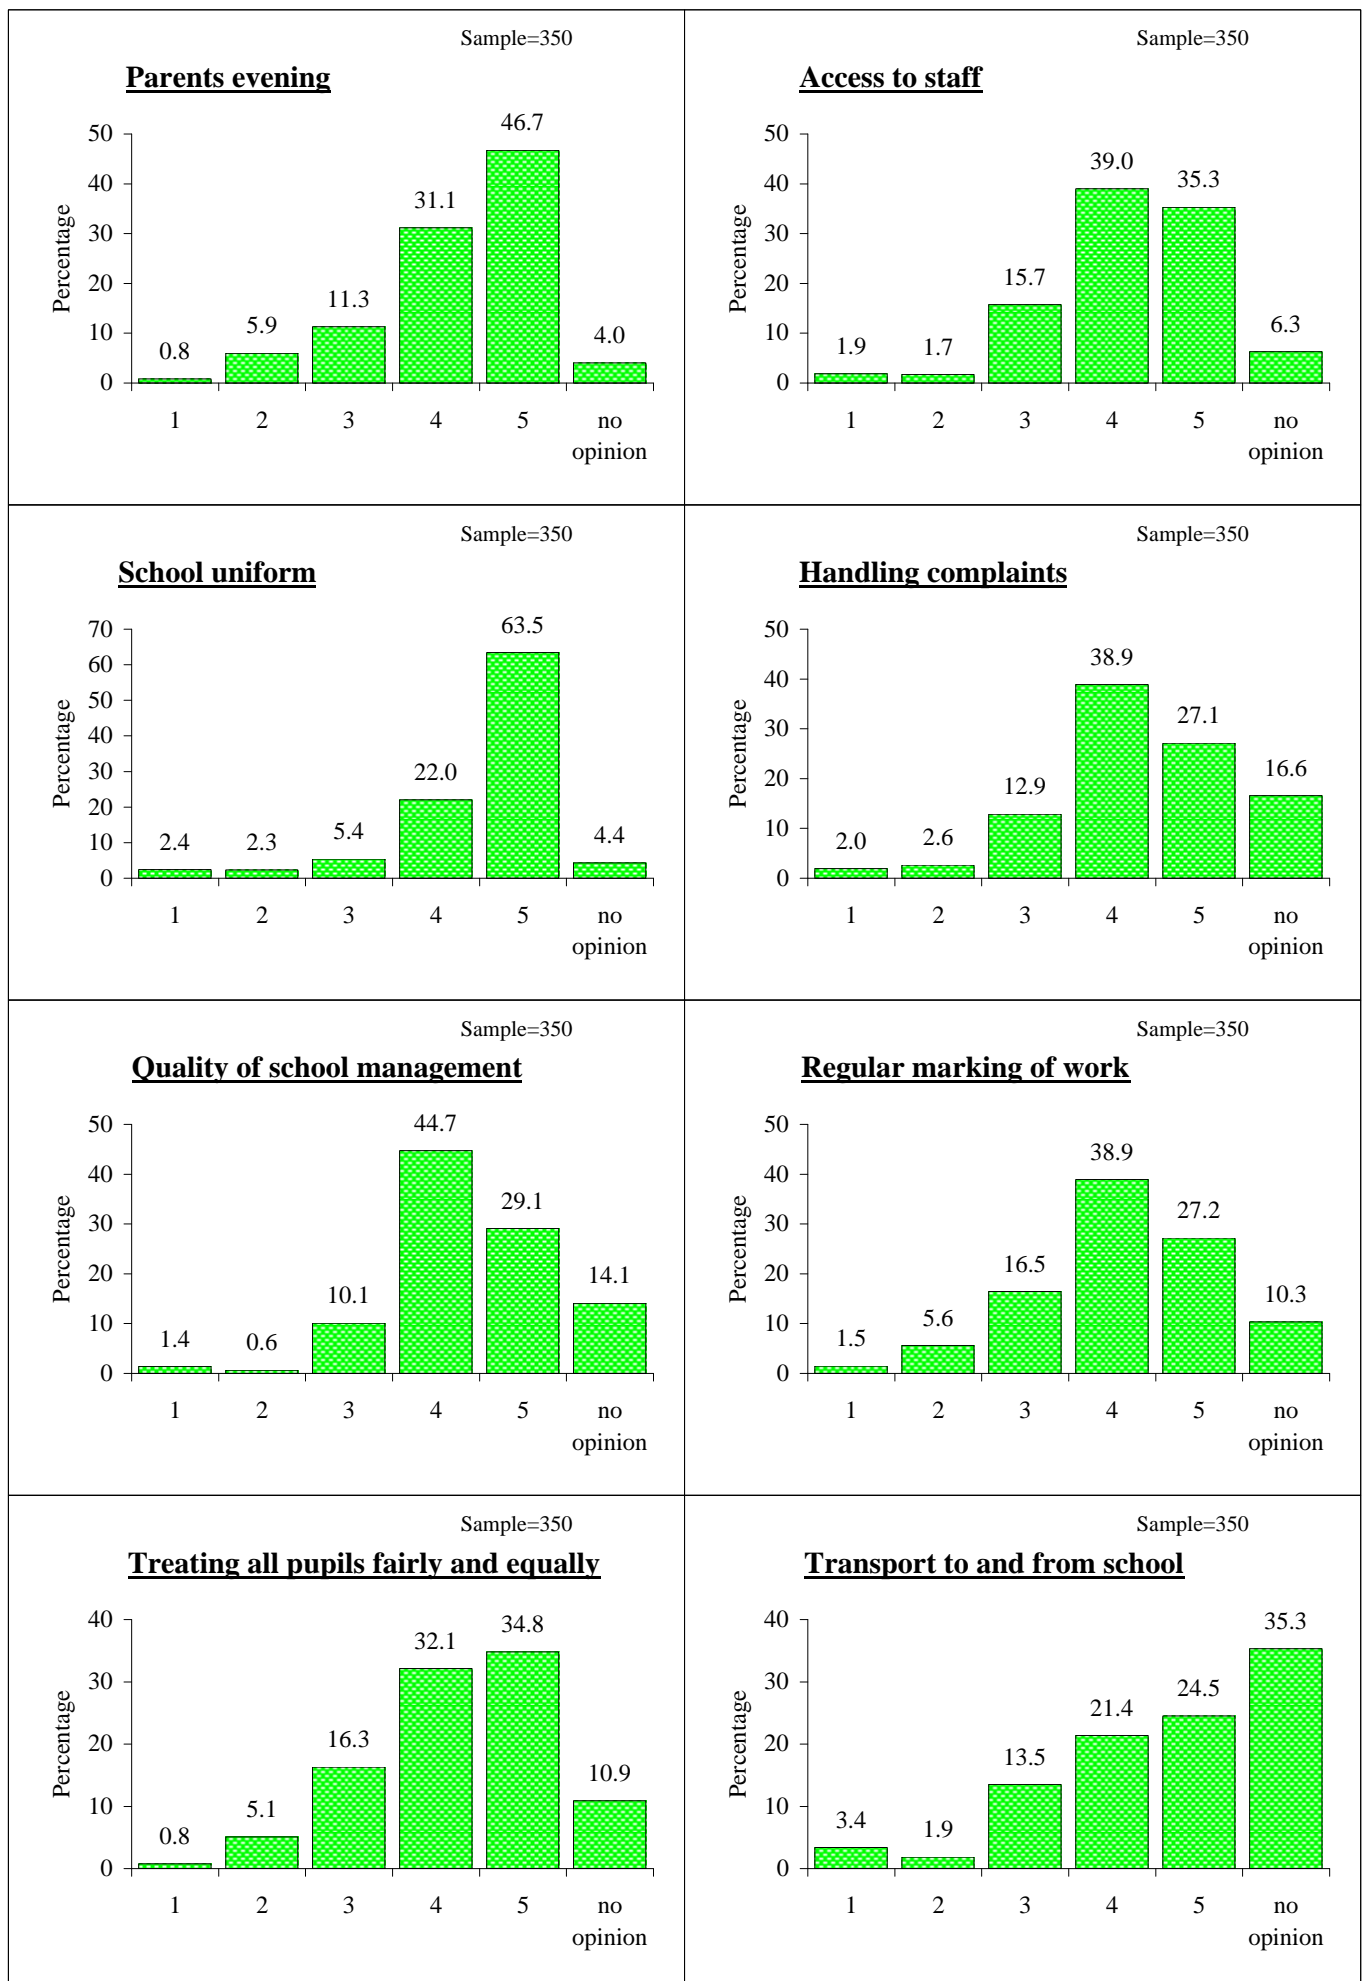

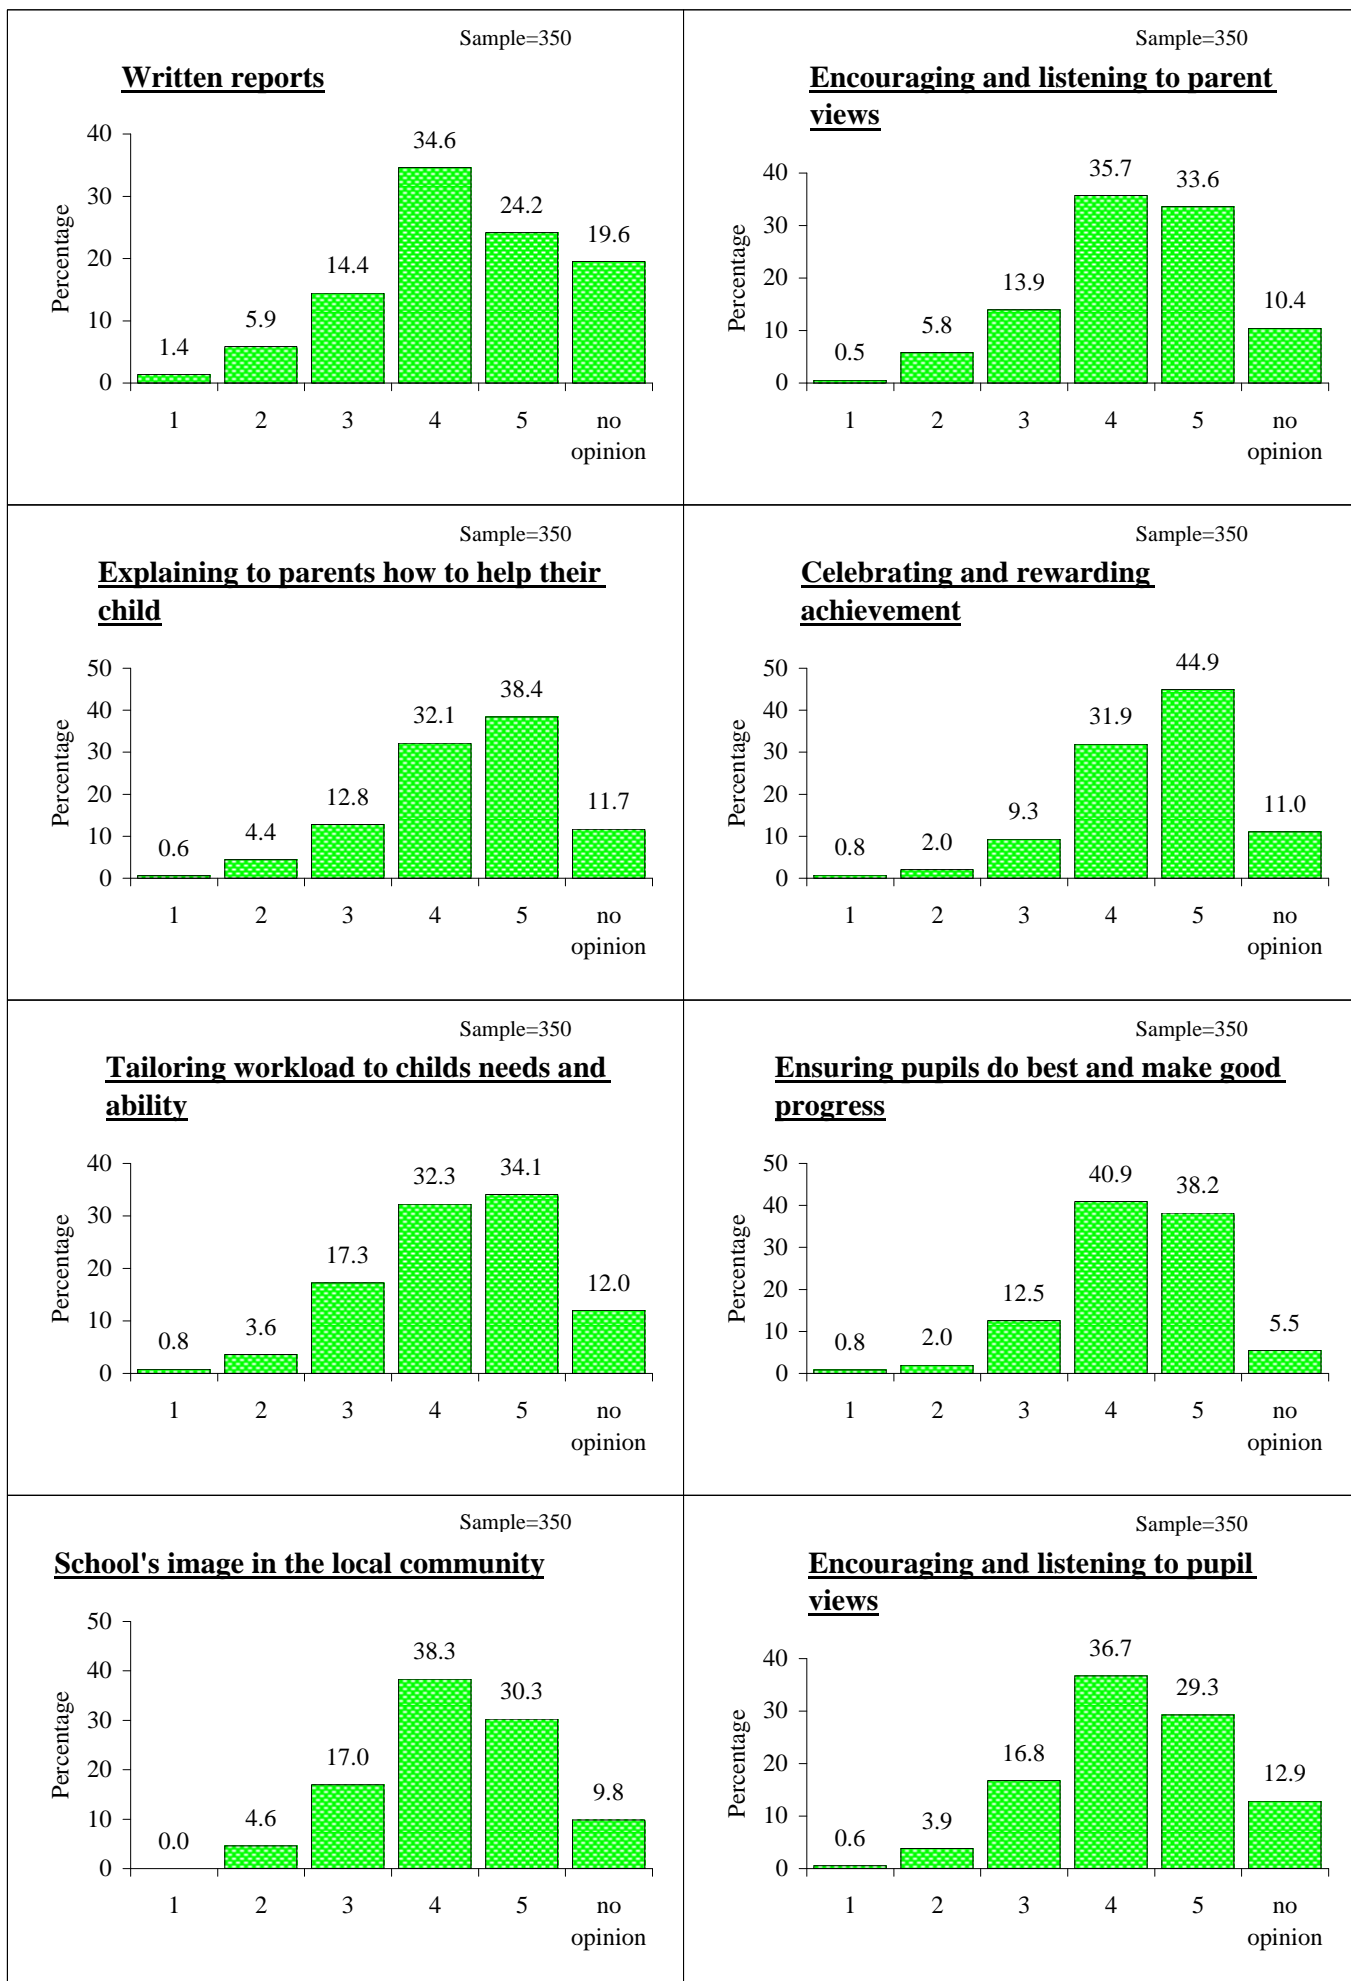

Subjects marked in **Pink** should only be considered indicative.

Graphs to show whether Parents think their Child is being "Pushed" Too Hard or Not Hard Enough for any Academic Subject, Broken Down by Year Group

Average figures from similar schools are given in [brackets], this school's last survey figures in [brackets]

Graph to Show Parents' Perception of the Amount of Homework Given, Broken Down by Year Group

For this question, schools typically achieve more than 50% of parents who choose "Right".
This level was achieved for all year groups.

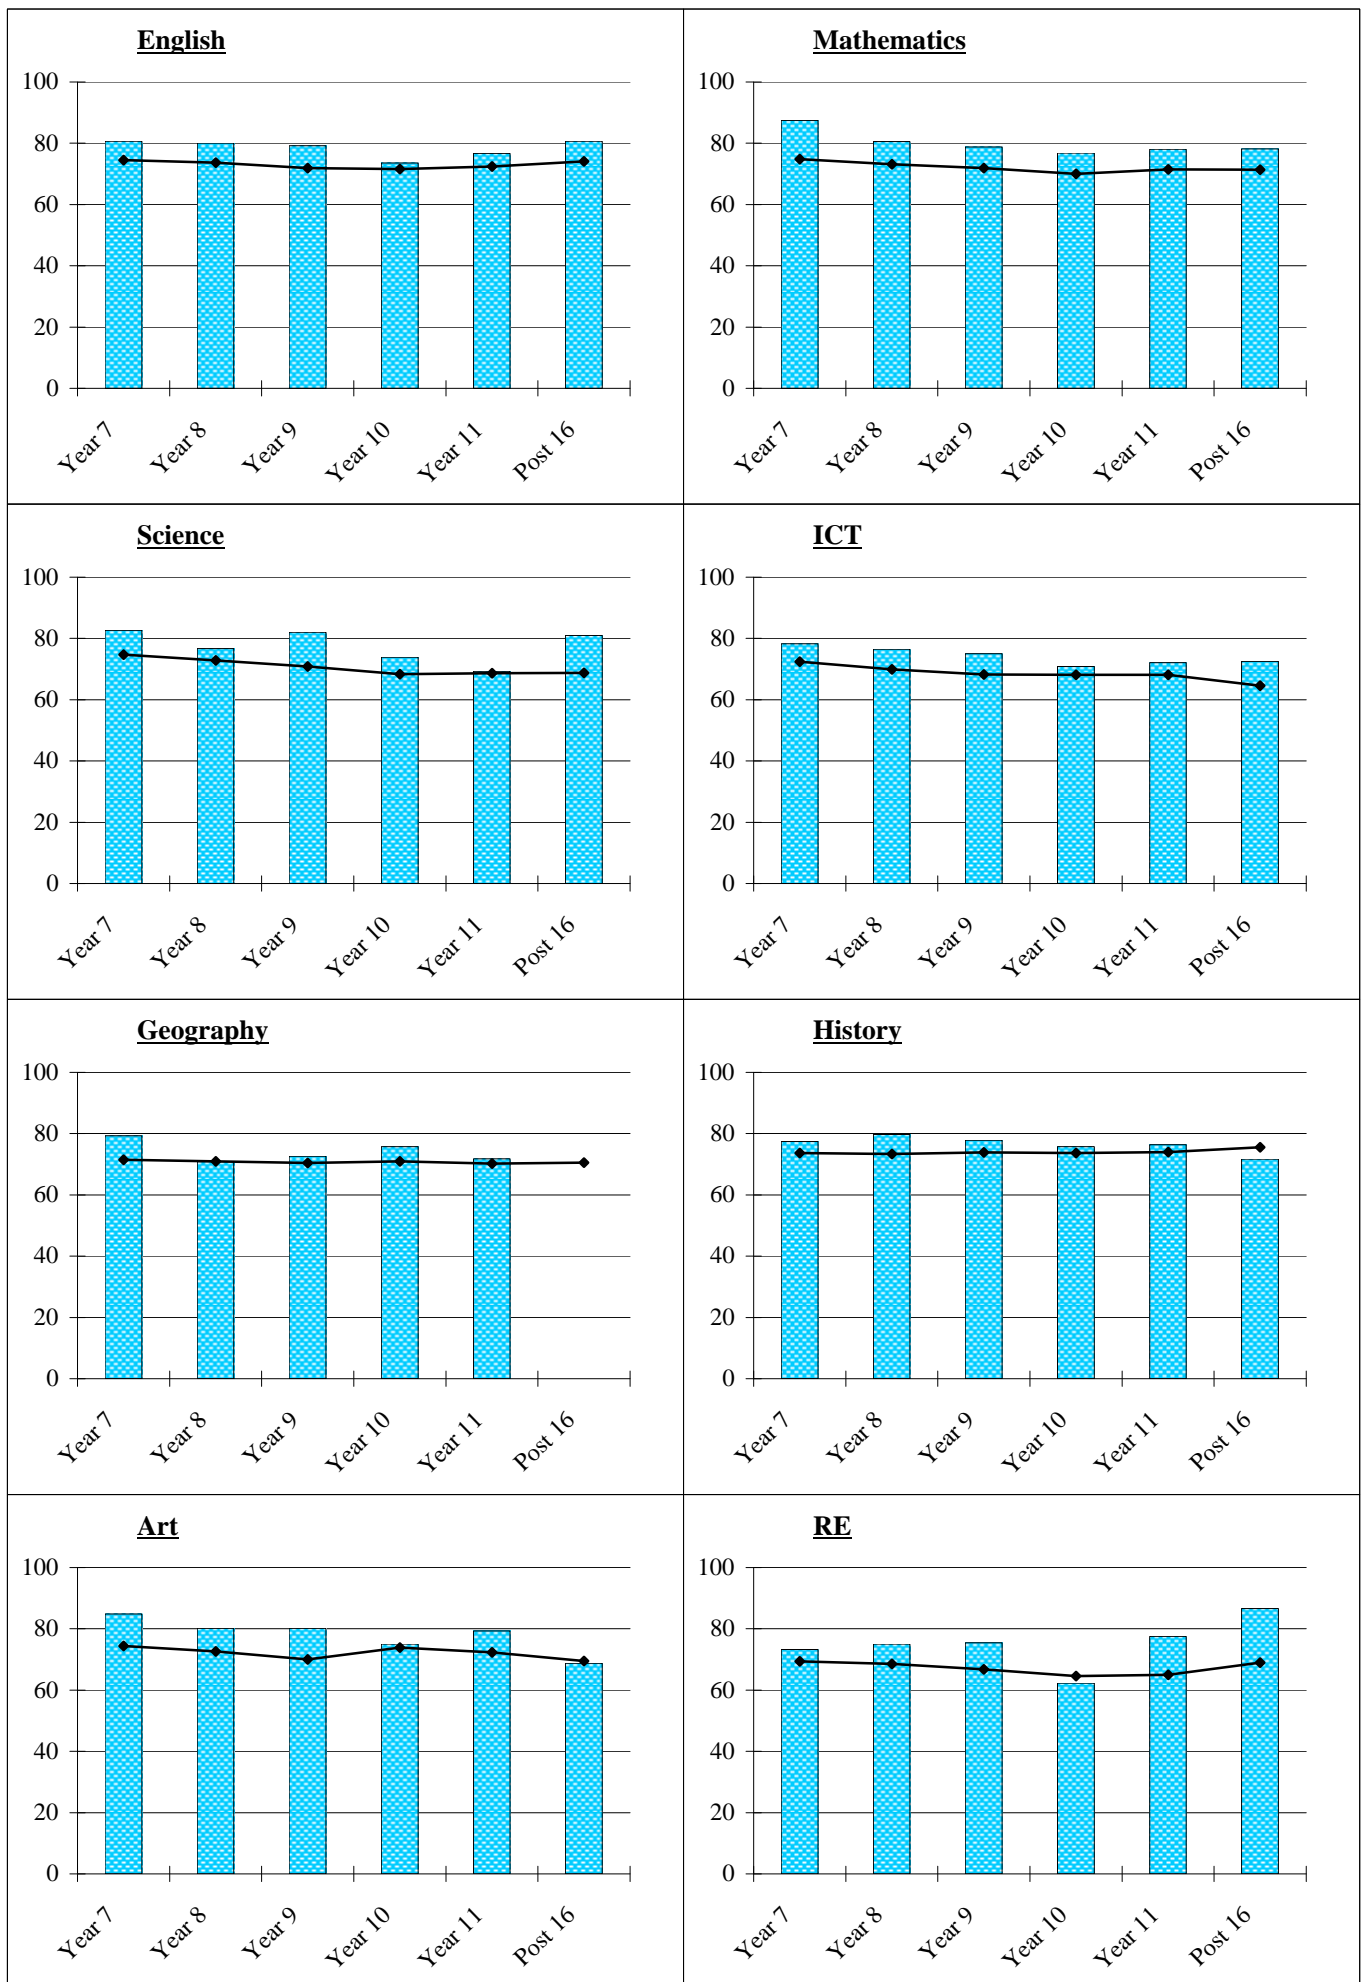

All Academic and Non-Academic Criteria shown by Year Group

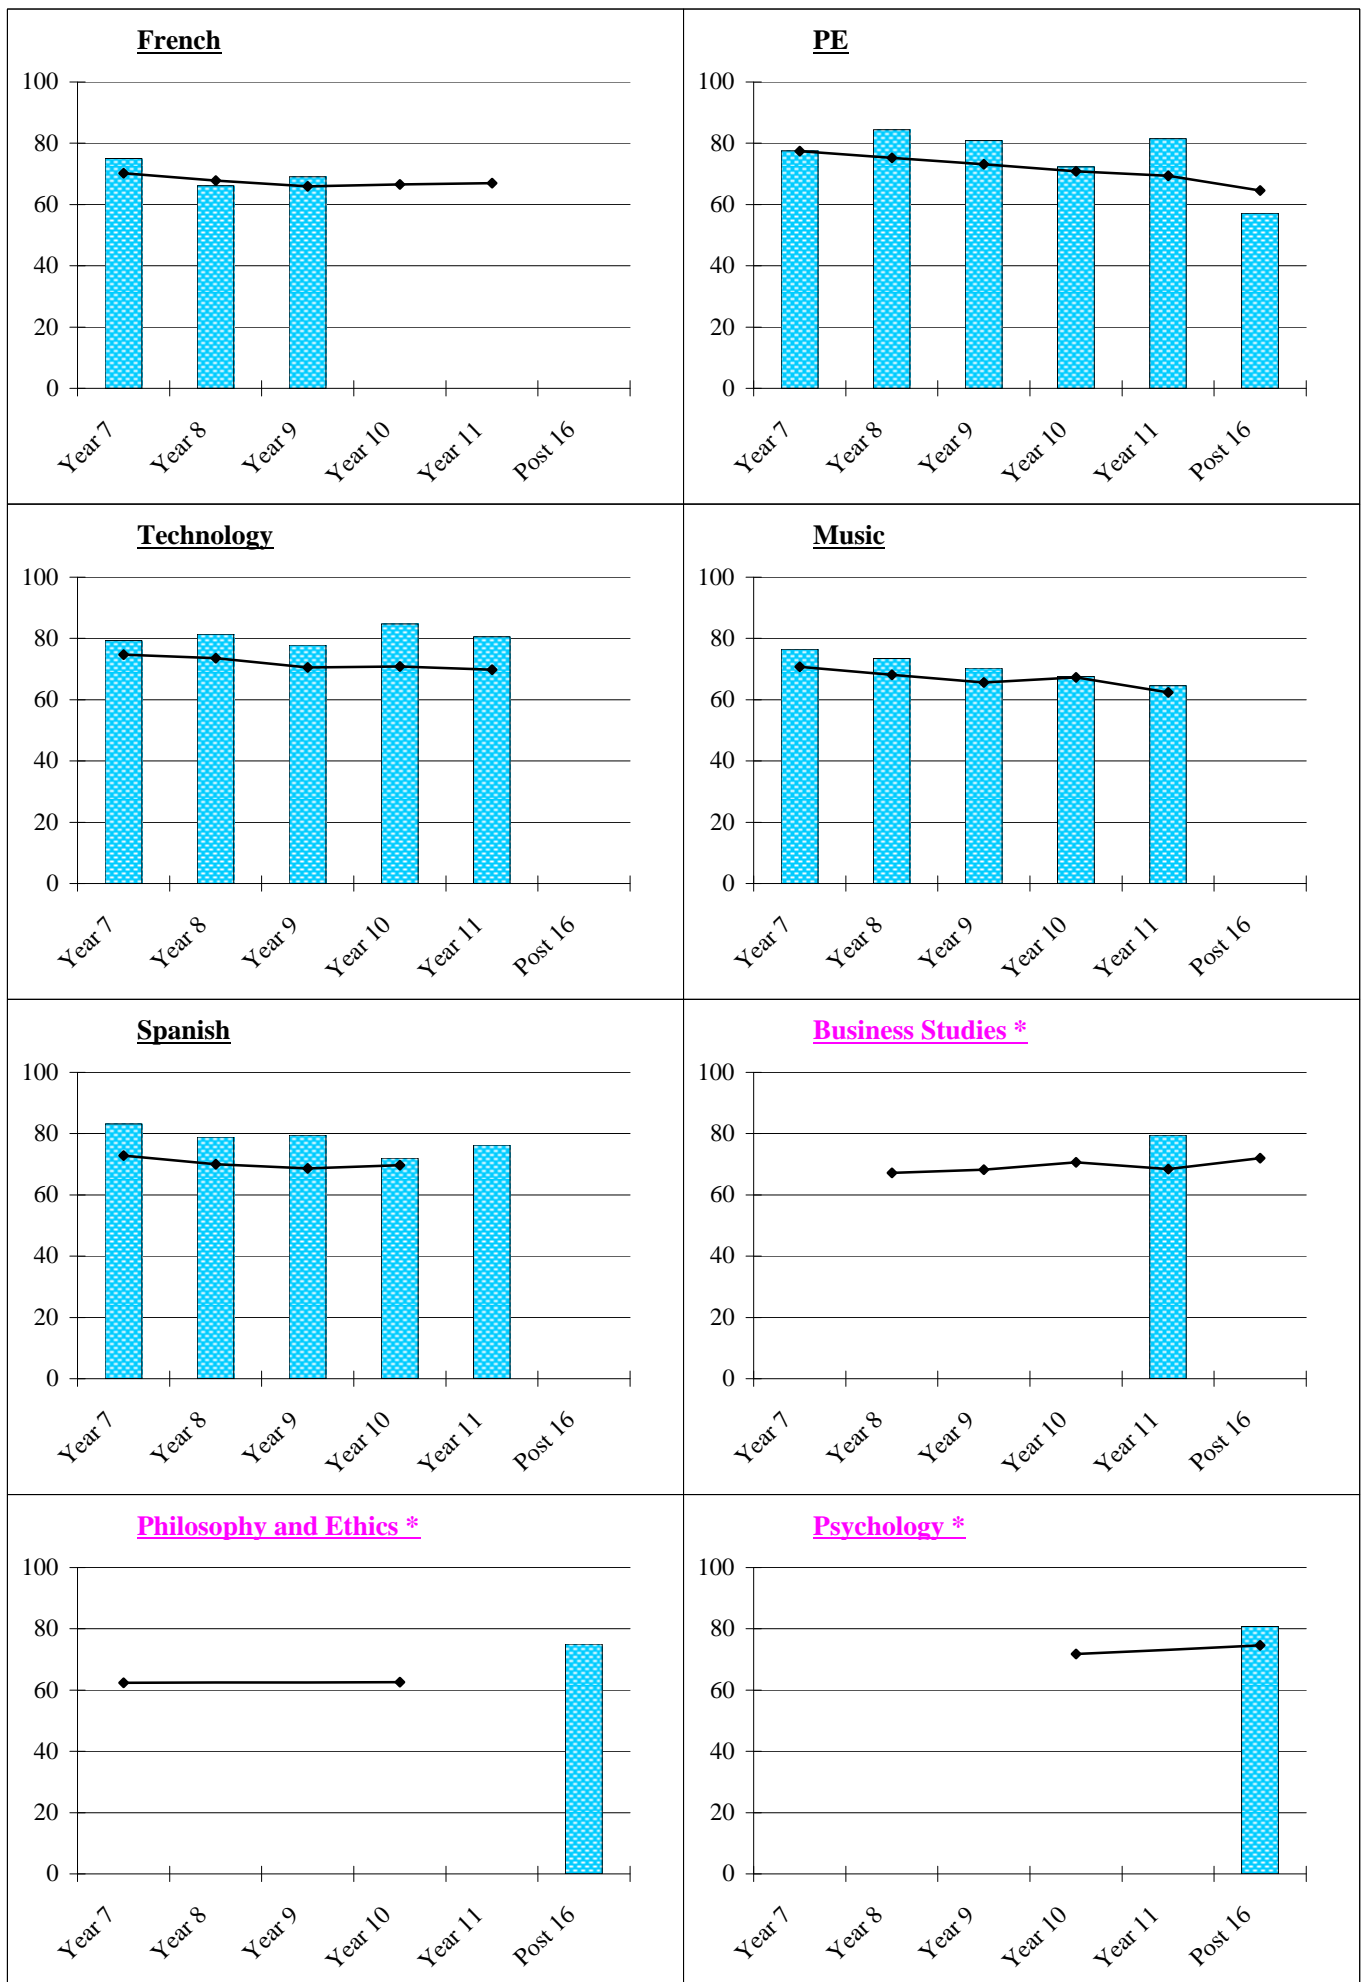

The following graphs show the scores achieved for each of the surveyed criteria, broken down by year group.

The black line shows the scores achieved from the average of similar schools, (where these averages are available).

Year groups where there were less than 12 respondents for a criterion are not shown.

Please note: these year group scores are unweighted.

Subjects marked in **Pink** should only be considered indicative.

Subjects marked in **Pink** should only be considered indicative.

Analysis to Investigate Unexpected or Unusual Year Group Results.

Earlier Kirkland Rowell reports were only able to tell you if a difference between 2 year groups was statistically significant. Now, using the patterns which we have extracted from analysing the year group results of similar schools, we are able to go one step further and tell you when differences are unexpected and meaningful.

As you can see from the previous section of the report; when broken down by year group, the averages of similar schools change as pupils get older. Some scores improve as pupils get older while others decline or show a dip, or a spike, in a particular year group. There are many reasons why these differences occur; for example because a subject is usually dropped in Year 9 or because some issues become more or less important as pupils progress through the school.

By applying these national patterns to the scores that your school achieved, we can make a prediction of the contributions that we would have expected from each year group, towards your whole school scores. This allows us to look at the differences between your year group scores in light of what usually happens in similar schools. Doing this enables us to more meaningfully compare the satisfaction of parents from one year group against those from another.

On the following pages we have plotted your actual score for each year group against the score that we would have expected each year group to contribute towards the whole school score that you received.

Where there is a large difference between the actual score and the predicted score, we know that we have identified a year group where parents are either more satisfied or less satisfied than we would have expected, compared to the rest of the school.

All actual scores were compared against the predicted scores, for each year group.

We have included in the following pages those criteria which show the largest differences between the scores achieved and the predicted scores i.e. those criteria where the parents were more or less happy than expected.

The Graphs Below for PE Show That The Contribution from Individual Year Groups, was Unusual.

The contribution towards the score for PE was lower than expected in Post 16.

The dotted line shows the contribution that we would have expected from each year group, based on your whole school score for this criterion . Note - this is not the Average of Similar Schools.

The Graphs Below for School facilities Show That The Contribution from Individual Year Groups, was Unusual.

The contribution towards the score for School facilities was higher than expected in Year 9.

The dotted line shows the contribution that we would have expected from each year group, based on your whole school score for this criterion . Note - this is not the Average of Similar Schools.

The Graphs Below for Handling complaints Show That The Contribution from Individual Year Groups, was Unusual.

The contribution towards the score for Handling complaints was lower than expected in Post 16.

The dotted line shows the contribution that we would have expected from each year group, based on your whole school score for this criterion . Note - this is not the Average of Similar Schools.

The Graphs Below for Celebrating and rewarding achievement Show That The Contribution from Individual Year Groups, was Unusual.

The contribution towards the score for Celebrating and rewarding achievement was lower than expected in Year 11.

The dotted line shows the contribution that we would have expected from each year group, based on your whole school score for this criterion . Note - this is not the Average of Similar Schools.

Appendix

Performance

The following method is used to produce the given percentage score for each of the criteria surveyed.

The scores are calculated to ensure that the final given results are as representative of the school as possible, and have been adjusted to reflect the following factors regardless of fluctuations in response rate.

- 1) The number of pupils in each year group.
- 2) The proportion of pupils studying a subject in each year group.
- 3) The ratio of boys to girls in the school.

The following assumptions are made:

- 1) The likelihood of a questionnaire being returned correctly completed is independent of the subjects that the pupils study.
- 2) The ratio of boys to girls does not fluctuate across the year groups of the school.
- 3) For Non-academic areas, it is assumed that boy's and girl's parents are equally likely to have an opinion. This assumption does not apply to academic subjects, where some (e.g.. Dance) may be taught to differing proportions of boys:girls. Where this is the case, an adjustment is made based on the ratio of respondents.

Calculating the performance score

The following example is for the subject of Religious Studies.

Where Religious Studies is only taught in years 9, 10, and 11 in a mixed gender school with years 7 to 11.

In order for a year group to be included in the final score for Religious Studies, 2 questions need to be satisfied:

- 1) Are there a minimum number of respondents giving a score for Religious Studies in that year? For small surveys (less than 300 total returned questionnaires) the minimum is 8. For larger surveys, the minimum is $8 + 2\%$ total number questionnaires exceeding 300. (i.e.. If 500 returned, $\text{min} = 8 + 2\%(500 - 300) = 12$)
- 2) Is the number responding in any year greater than 5% of total respondents giving a score for Religious Studies?

If "yes" to both, then label that year Y, if "no" label that year N.

In this school therefore Year 7 = N, Year 8 = N, Year 9 = Y, Year 10 = Y, Year 11 = Y.

Years which = N should not contribute to the final score.

Calculate that proportion of the final score which should be contributed by each year where the year = Y.

First calculate the proportion of each years contribution which should come from boys' parents.

$$P9_{\text{boys}} (\text{RS}) = \frac{\text{Number of boys in year 9}}{\text{Number of boys in years = Y}} \times \frac{\text{Number of year 9 boys respondents to Religious Studies}}{\text{Total number of year 9 boys respondents}}$$

Repeat this process for other years where year = Y (i.e. years 10 and 11 in this case) to achieve P10boys, and P11boys (Religious Studies).

We now calculate the final proportions contributed by each year group.

$$\text{Final proportion } F9_{\text{boys}} (\text{RS}) = \frac{P9_{\text{boys}} (\text{Religious Studies})}{(P9_{\text{boys}} (\text{RS}) + P10_{\text{boys}} (\text{RS}) + P11_{\text{boys}} (\text{RS}))} \times \text{Mean score for year 9 Religious Studies, boys}$$

Repeat this process for F10boys (RS) and F11boys (RS).

To achieve the final boys score $F_{\text{boys}} (\text{RS}) = F9_{\text{boys}} (\text{RS}) + F10_{\text{boys}} (\text{RS}) + F11_{\text{boys}} (\text{RS})$.

We then repeat the process above for girls to achieve Fgirls (Religious Studies).

In order to combine the boys score with the girls score for each academic subject, it is now necessary to weight them in proportion to the number of boys and girls returns, to take into account the possibility that the subject has significantly higher numbers of one gender studying that subject (e.g.. Dance say).

$$\text{Girls Weighting (GW)} = \frac{\% \text{ of girls in school}}{\text{Total number of girl responses in whole survey}}$$

$$\text{Girls Fair Voice (GFV)} = \text{GW} \times \text{Number of girl responses for Religious Studies}$$

$$\text{Girls Proportion of final score (GPfs)} = \frac{\text{GFV}}{\text{GFV} + \text{BFV}}$$

Similarly,

$$\text{Boys Proportion of final score (BPfs)} = \frac{\text{BFV}}{\text{GFV} + \text{BFV}}$$

Now, final Academic scores can be calculated as:

$$\begin{aligned} \text{Final (Religious Studies) Score} &= \text{GPfs} \times \text{Fgirls (RS)} + \text{BPfs} \times \text{Fboys (RS)} \\ &(\text{unless GPfs} = 0, \text{ in which case, Final Religious Studies Score} = \text{Fboys (RS)}) \\ &(\text{or BPfs} = 0, \text{ in which case, Final Religious Studies Score} = \text{Fgirls (RS)}) \end{aligned}$$

In order to combine the boys score with the girls score for non-academic subjects, the above gender weighting is not necessary as boy's and girls parents are considered equally likely to have an opinion (e.g.. School discipline). Thus, final scores are calculated as:

$$\begin{aligned} \text{Final (school discipline) score} &= \\ &(\text{Fboys (sch discipline)} \times \text{ratio of boys in school}) + (\text{Fgirls (sch discipline)} \times \text{ratio of girls in school}) \end{aligned}$$

The Final Scores can now be converted into percentages, as given in the report, in the following way.

$$\text{Final Religious Studies Score (which lies between 1 and 5)} \times 20 = (\text{a figure lying between 20 and 100})$$

$$\text{Then subtract 20} = (\text{a figure lying between 0 and 80})$$

$$\text{Then multiply by 1.25} = (\text{a figure lying between 0 and 100 i.e. a percentage score})$$

This final score for Religious Studies is then weighted based upon the average bias which has been measured in relation to Religious Studies. This weighting is applied so that the scores for each academic subject in the school might be compared with one another on a level playing field, having adjusted each subject in line with its measured parent bias.

Religious Studies usually scores more poorly than most other subjects and hence receives a positive weighting factor.

In this case the final school score for Religious Studies is multiplied by 1.06 (say)

This process produces the final weighted score for Religious Studies which is given in the report as shown on the first results page (Academic Criteria)

Measuring Reliability

We require that any final result given is within 5% of the true value 19 times out of twenty.

We require that any criteria has at least 25 responses so that we can be confident that the mean value which the sample produces will follow the rules of a normal distribution. If we have less than 25 responses the result is labelled as "low response".

5% = 0.2 on our scale of 1 - 5

We then require that 2 X the standard error of the mean has a value of less than 0.2

In other words the standard error of the mean must have a value of less than 0.1

If this is the case then the result fulfils our criteria and we know the result is within 5% of the true value at the 95% confidence level. If the standard error of the mean lies between 0.1 and 0.2 then we have the 95% confidence level to within 10%. If the standard error of the mean is greater than 0.2 then the result is labelled as "low response".

We calculate the standard error of the mean as follows:

$$\text{Standard Error Of The Mean (S.E.M.)} = \frac{S}{\text{The square root of } n}$$

where S is the standard deviation and n is the sample size

The standard deviation is calculated as a function of Microsoft Excel.

Significant Differences

We require that differences between two given results (e.g.. When comparing this year's scores with last year's scores) are highlighted to indicate a significant difference if the given difference is greater than 5% on our scale and is greater than might be expected as a result of sample variations at the 95% confidence level.

Changes are therefore highlighted as significant if they fulfil the following condition.

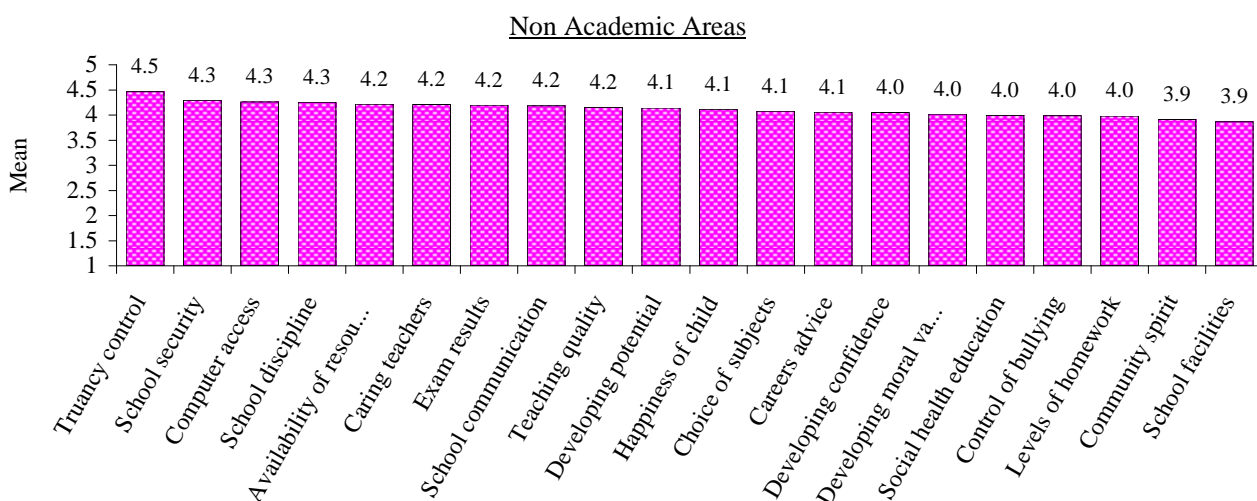

If greater than 5% of our scale, and greater than 2 X SEM of first result + 2 X SEM of second result.

Where we look for significant differences between the scores for individual year groups (e.g.. As shown in the cross-tabular analysis for individual subjects), the sample may often be less than 30. It is therefore necessary to use a T test to establish if the difference between the 2 years is significant at the 95% confidence level.

While changes or differences of less than 5% of our scale may be significant at the 95% confidence level, we consider changes/differences of this magnitude to be of no practical use in management terms and therefore only highlight those figures greater than 5%.

Graphs to Show Raw, Adjusted Satisfaction Score Achieved for Each of the Criteria Surveyed. (These are the results before the weightings are applied.)

The mean scores below are converted into weighted performance scores in the results pages.
