

Dates for your Diary

Thursday

Dear Parents and Carers,

Best wishes for the week ahead,

Mr Clayton, Headteacher

STEM CLUB!

As a Bridge Student Council representative, I interviewed Anumitha about STEM and some of the questions I asked were, 'Do you enjoy STEM, do you do anything other than scratch and why did you join STEM?' Here are more questions and the answers to them.

My first question was, "What do you do in STEM?" Anu replied: "We do scratch to make animations then we show it to the rest of the class." I also asked her, "Do you enjoy STEM?" She replied "Yes, I get to collaborate with classmates and share ideas about animations and science." I wondered do you do anything other than scratch so I

asked her and she replied "Not so far, but we might do other things related to science."

My next question was "Why did you join STEM?" She answered "I joined STEM because I had lots of ideas about the subject and because I did it in primary school and enjoyed it. One burning question I had was "Was the first week of STEM what you expected?" The answer was "It wasn't what I expected because I thought we would do experiments but I enjoyed it anyway". My final question was "Was it a bit difficult or really hard?" She told me "I find it a bit difficult sometimes but the teacher helps you."

Football Heroes

Hello, my name is Eve Lovelock and today I am going to tell you about my football experience. I started to play for Aston Villa in September. I play for the RTC and me and my team have been training with the FA doing lots of bull mastering.

I have enjoyed many things but my favourites are techniques and drills. I train on Tuesday and Wednesday for two hours and on Saturday I play football matches.

I play right wing and right back defence also the teams I have

played against are most RTC and I play for the boy's league.

I've enjoyed working with most of the RTC like Wolves and West Bromwich where we play many football games and I do lots of cross-country which I enjoy.

My team and I have won all our games except when we played for Derby; it was a rough game! I have played for other teams, as well as RTC, Covertrians, Finbars and Coventry City Girls.
