

Task

In the following slides I have given you some images for you to use to create your Pop Art portrait.

1. So on **Slide 4** you have the portraits of Rhianna & Ariana Grande. You need to choose one of these portraits for your Pop Art image and draw it.
2. Once you have drawn your portrait then you need to work on the background. On **Slide 5** there are images of Windows & Cityscape backgrounds that you can use to create a background image. Select the appropriate image for your background and draw it.
3. As you might have noticed from **Slide 2** that the image has the woman thinking & her thought is shown using the thought bubble - so on **Slide 6** I have found images of thought bubbles that you can use. In the thought bubble you will need to add a thought by writing it - so you'll need to think carefully what you think your character is thinking.
4. On **Slide 7** I have created an example using the images I have given you.

Line Drawing Portraits

Step 3

• Pop Art Windows & Pop Art City-scape

Pop Art Thought Bubbles
